Cartographies of Empire Myka Tucker-Abramson,2025-03-18 The road novel is often dismissed as a mundane nostalgic genre Jack Sal and other tedious white men on the road trying to recapture an authentic youth and American past that never existed Yet new road novels appear every year tackling unexpected questions and spanning new

geographies from Mexico Brazil Bulgaria Palestine Ukraine and former Yugoslavia Why did the road novel emerge and why does it persist What does it do and why has it traveled so widely Myka Tucker Abramson draws from an archive of more than 140 global road novels from over twenty countries challenging dominant conceptions of the road novel as primarily concerned with American experiences and subjectivities Grounding her analysis in materialist theories of genre world ecology and commodity frontier frameworks and post 45 American literary studies Tucker Abramson persuasively argues that the road novel is a genre specific to coterminous with and revealing of US hegemony s global trajectory Shifting our focus from Americanness to the fraught geopolitics of US Empire from the car to the built environment through which it moves and from passengers to those left behind Tucker Abramson remaps the road novel elucidating the genre s unique ability both to reveal the violent and vertiginous processes of capitalist modernization and to obfuscate these harsh truths through seductive narratives of individual success and failure

Crooked Cats Nayanika Mathur,2021-07-12 Big cats tigers leopards and lions that make prey of humans are commonly known as man eaters Anthropologist Nayanika Mathur reconceptualizes them as cats that have gone off the straight path to become crooked Building upon fifteen years of research in India this groundbreaking work moves beyond both colonial and conservationist accounts to place crooked cats at the center of the question of how we are to

comprehend a planet in crisis There are many theories on why and how a big cat comes to prey on humans with the ecological collapse emerging as a central explanatory factor Yet uncertainty over the precise cause of crookedness persists Crooked Cats explores in vivid detail the many lived complexities that arise from this absence of certain knowledge to offer startling new insights into both the governance of nonhuman animals and their intimate entanglements with humans Through creative ethnographic storytelling Crooked Cats illuminates the Anthropocene in three critical ways as method as a way of reframing human nonhuman relations on the planet and as a political tool indicating the urgency of academic engagement Weaving together beastly tales spun from encounters with big cats Mathur deepens our understanding of the causes consequences and conceptualization of the climate crisis

Migration and the Refugee Dissensus in Europe

Nicos Trimikliniotis, 2019-09-25 This book provides an explanation for the fundamental disagreement pertaining to immigration and asylum in Europe Since the collapse of consensus with the end of the Cold War immigration and asylum have increasingly emerged as a central socio political issue in Europe The present work attempts to move beyond the complexity of managing migratory flows by focusing on the most daunting issues arising from the response to the refugee crisis in Europe This debate is intimately connected to borders security belonging citizenship and labour precarity inequality The book addresses some crucial dimensions related to the migration and asylum dissensus by providing an integrated frame of analysis from the point of view of resistance rather than that of power It connects notions of belonging and the migrant integration with the processes of de democratisation racist populism citizenship and authoritarian migration regimes and contributes towards a theory of the asylum and immigration dissensus by examining the potential for transition towards a society of equality and rights The author proposes that the encounter s with surplus populations in Europe which result in the multiplication of liminal regimes as well as spaces for resistance generates potential for social imaginaries promising a society unimaginable in previous epochs This book will be of much interest to students of migration and border studies global governance European politics and International Relations

Democracy and Prosperity

Torben Iversen, David Soskice, 2020-11-03 It is a widespread view that democracy and the advanced nation state are in crisis weakened by globalization and undermined by global capitalism in turn explaining rising inequality and mounting populism This book written by two of the world s leading political economists argues this view is wrong advanced democracies are resilient and their enduring historical relationship with capitalism has been mutually beneficial For all the chaos and upheaval over the past century major wars economic crises massive social change and technological revolutions Torben Iversen and David Soskice show how democratic states continuously reinvent their economies through massive public investment in research and education by imposing competitive product markets and cooperation in the workplace and by securing macroeconomic discipline as the preconditions for innovation and the promotion of the advanced sectors of the economy Critically this investment has generated vast numbers of well paying jobs for the middle classes and their children focusing the aims of

aspirational families and in turn providing electoral support for parties Gains at the top have also been shared with the middle though not the bottom through a large welfare state Contrary to the prevailing wisdom on globalization advanced capitalism is neither footloose nor unconstrained it thrives under democracy precisely because it cannot subvert it Populism inequality and poverty are indeed great scourges of our time but these are failures of democracy and must be solved by democracy
