Marcus 582 Donna McDonald, 2015-04-21 Marcus 582 is the third book in this futuristic Science Fiction and Fantasy series from USA Today Bestselling Author Donna McDonald. No matter what his cybernetic mind concludes, nothing in Marcus Kell's restored life is logical. Marcus 582 still remembers all the things Kyra says a restored cyborg is supposed to forget. Things like what it was like to be captured and tortured while fighting to save a country that a decade later doesn't care about him. But then neither does his former wife. She gave up on him long ago. Now she's remarried, and his children think someone else is their father. As far as he's concerned, Marcus doesn't have much in his life worth living for except the task of guarding Rachel. 235 The woman irrationally refuses to accept that she's been converted into some crazy cyber scientist's new cyborg prototype. Accept it or not, though her denial won't stop the bad guys from trying to recapture her. Just ask Peyton. Sympathy is a stretch, but Marcus understands why Rachel doesn't want to be a cyborg. After all, her conversion wasn't voluntary like his. But Rachel wants a life without any cyborgs in it, including herself, which will never be her reality again. It's time she got used to that fact. Why is he so determined? Because he's already lost all he can stand to lose in his life. He refuses to lose Rachel, too.

Peyton 313 Donna McDonald, 2014-09-17 Peyton 313 is the first book in a futuristic Science Fiction and Fantasy series from USA Today Bestselling Author Donna McDonald. The war was over long ago, but the fight for their humanity is just beginning. Dr. Kyra Winters certainly never meant for her work to be used for anything evil, even though that's exactly what happened. Her studies in cyber conversions and genetic engineering were supposed to make the world a better place. The best soldiers got converted into Cyborgs to fight a World War, no one wanted to be reminded of ever happening. Enslaved by their programming ten years ago, the Cyborgs have no idea that the war they signed up to fight is over. Or that a fight for their humanity is just beginning. If the current world powers had any proof of her reversal experiments, Kyra would be killed for even trying to free them. She's already lost two Cyborgs due to her failures. Are Peyton 313's chances any better? Failure is not an option Kyra can even consider since she's out of both money and time. The fate of all cybernetic humans rests on her successfully restoring the cyborg who was once Marine Captain Peyton Elliott. Worst epic fail of her scientific career. Caring too much for a cyborg, she helped create.
