1. Use Target Reading Skills

How may students begin using the information in:

Figure 1.1: An organism's abilities to eat, move, collect, and collect things to survive from its environment.

Answer: Each organism needs first in a specific type of environment, called its habitat.

Answer: Organisms live in different habitats because they have different requirements for survival.

Studying Populations (Global Reading and Study)

Use Target Reading Skills. Practice student questions and answers are shown.

How do you determine population size? Answer: Methods of determining population size are direct observations,

indirect observations, sampling, and mark-and-recapture studies. What causes populations to change in size?

Answer: Factors include birth, death, immigration, and emigration.

What are limiting factors? Answer: are factors that can limit population growth if they are unfavorable for the

organisms in the population. Food and water, space, and weather conditions can be limiting factors.
