 There are many books on how to succeed in F I Experts are everywhere trying to give you advice on how to be successful You  
 see magazines blogs podcasts and even TV shows telling you how to maximize your profits and overcome any objection Yet  
 something is still missing Customer satisfaction is incredibly low People dislike the buying process Nearly 6 out of every 10  
 customers skip buying a vehicle service contract from their selling dealer while third party competition is thriving on selling  
 to those same customers With the advent of DealerTrack and RouteOne coupled with the evolution of the desk submitting  
 deals before F I involvement even begins people should be delighted with the overall transaction times but they re not  
 Another problem we face is that most F I training offered today follows an old model of trying to simply overcome objections  
 The focus on objections made F I development companies a solution for dealers wanting to create their own F I departments  
 in the 1970 s And it worked They created an industry But the world keeps moving Today endlessly debating with customers  
 by overcoming every objection is a problem We must be as Bruce Lee said Like water and adapt to each customer  
 individually For instance today a menu presentation with every product bundled into the Complete or Platinum column may  
 be the best way to present your payments or it may not be Do you know what sales process is most effective in YOUR store  
 Or are you just doing what the trainer tells you works best More importantly can they bring data Can they demonstrate  
 effective results in YOUR store If not why are they giving you advice      *Motor Vehicle Diagnostic Analysis Technology,*
