Laboratory Manual Vodopich:

Biology Laboratory Manual Darrell S. Vodopich, Randy Moore, 2022-01-14 The *Biology Laboratory Manual* by Vodopich and Moore was designed for an introductory biology course with a broad survey of basic laboratory techniques. The experiments and procedures are simple, safe, easy to perform, and especially appropriate for large classes. Few experiments require more than one class meeting to complete the procedure. Each exercise includes many photographs, traditional topics, and experiments that help students learn about life. Procedures within each exercise are numerous and discrete so that an exercise can be tailored to the needs of the students, the style of the instructor, and the facilities available. Additionally, with McGraw Hill Connect, powerful digital tools augment lab instruction by helping students apply their knowledge in a laboratory setting. Connect Virtual Labs can be implemented in a hybrid or fully online setting to help students prepare for the wet lab and strengthening their lab experience. *Vodopich Biology Laboratory Manual specific t/a Brooker Biology*
