

The background of the book cover is a soft-focus photograph of a person's legs from the knees down. They are wearing a shimmering, sequined skirt in shades of purple and pink, white tights, and dark brown pointed-toe pumps. The person is holding a large, ornate, golden lamp with a faceted glass globe. The overall aesthetic is romantic and elegant.

, Fairy Tales from Before Fairy Tales Jan M. Ziolkowski, 2010-02-01 When did fairy tales begin What qualifies as a fairy tale Is a true fairy tale oral or literary Or is a fairy tale determined not by style but by content To answer these and

other questions Jan M Ziolkowski not only provides a comprehensive overview of the theoretical debates about fairy tale origins but includes an extensive discussion of the relationship of the fairy tale to both the written and oral sources Ziolkowski offers interpretations of a sampling of the tales in order to sketch the complex connections that existed in the Middle Ages between oral folktales and their written equivalents the variety of uses to which the writers applied the stories and the diverse relationships between the medieval texts and the expressions of the same tales in the classic fairy tale collections of the nineteenth century In so doing Ziolkowski explores stories that survive in both versions associated with on the one hand such standards of the nineteenth century fairy tale as the Brothers Grimm Hans Christian Andersen and Carlo Collodi and on the other medieval Latin demonstrating that the literary fairy tale owes a great debt to the Latin literature of the medieval period Jan M Ziolkowski is the Arthur Kingsley Porter Professor of Medieval Latin at Harvard University

Oliver, 2019-08-29 In the sixteenth century a period of proliferating transatlantic travel and exploration and latterly religious civil wars in France the ship is freighted with political and religious as well as poetic significance symbolism that reaches its height when ships both real and symbolic are threatened with disaster The Direful Spectacle argues that in the French Renaissance shipwreck functions not only as an emblem or motif within writing but as a part or the whole of a narrative in which the dynamics of spectatorship and of co operation are of constant concern The possibility of ethical distance from shipwreck imagined through the Lucretian *suave mari magno* commonplace is constantly undermined not least through a sustained focus on the corporeal This book examines the ways in which the ship and the body are made analogous in Renaissance shipwreck writing bodies are described and allegorized in nautical terms and conversely ships themselves become animalized and humanized Secondly many texts anticipate that the description of shipwreck will have an affect not only on its victims but on those too of spectators listeners and readers This insistence on the physicality of shipwreck is also reflected in the dynamic of bricolage that informs the production of shipwreck texts in the Renaissance The dramatic potential of both the disaster and the process of rebuilding is exploited throughout the century culminating in a
