Culture et religion en Afrique au seuil du XXIe siècle Latoundji Laly, 2017-07-19 To claim its culture to demand its right to cultural diversity or to proclaim its belonging to a group of believers and to seize the flag of that belief in order to perpetrate actions that are then called holy to terrorize others by imposing their vision Of things and its law are undoubtedly two of the most worrying features of the entry of our societies in the twenty first century which is beginning This is why the texts gathered here have been judged to be appropriate to open a serious and methodical reflection on religion and culture in Africa at the threshold of the 21st century The contributions gathered in this volume are opened by an interrogation and rather than closed end with an opening on research horizons There is something here to open up and nourish the inquiries which alone or in structured groups the specialists in the sciences of man are invited to imagine and lead on the religion and culture of Africa today
