*Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume II*

Houcine Berbou, Aziz Fassouane, Mustapha Belaissaoui, 2020-04-06. This book brings together papers presented at the 3rd Conference of Research in Economics and Management CIREG held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions, they highlight the contribution of researchers in the fields of business and management with all their micro and macro economic aspects. They shed light on the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change rather than in constructing a category, a particularly useful empirical concept. This third volume is focused on marketing and human resources.

**Le management des prisons** Gaëtan Cliquennois, 2013-07-22. Cet ouvrage met en preuve une hypothèse du succès croissant de la gestion actuarielle des risques et la thématique de la responsabilisation. Il revient sur les différents noms de ces deux notions, sur leurs sources et origines intellectuelles, ainsi que sur les différents champs du domaine social et penal auxquels s'appliquerait cette hypothèse. Les prisons constituent l'un des principaux champs d'application de la gestion des risques et de la responsabilisation. L'ouvrage propose ensuite de discuter de la pertinence et de la validité de cette hypothèse, à partir d'un matériau juridique pénitentiaire français constitué de trois domaines disciplinaires. L'affectation des détenus, l'allocation du travail aux détenus, les décisions disciplinaires. L'étude de ces trois domaines disciplinaires permet de jauger la pertinence de l'hypothèse en précisant sa
