

**GCS16 SERIES UNITS**  
**2 THROUGH 5 TON UNITS**

GCS16 series units in the 2-5 ton cooling size were introduced in the summer of 1989. The units are packaged combination gas heat / dx cool units designed for both residential and commercial applications. Gas heat sections are available with Lennox' helical heat exchanger in 50,000 , 75,000 , 100,000 and 125,000 Btuh input sizes. Units are designed for rooftop or side of building installation with either bottom or horizontal discharge.

For commercial applications, the GCS16 is designed to

accept any of several different thermostat control systems with minimum field wiring. Control options such as economizer, warm up kit, Honeywell W973 control or Honeywell W7400 control connect to the unit with jack-plugs. When plugged in the controls become an integral part of the unit wiring. Commercial units are also equipped with a low voltage terminal strip to facilitate thermostat field wiring.

All specifications in this manual are subject to change.
