Life Sentence Life Of Pain English Edition:

Black Rage Confronts the Law Paul Harris, 1997-05-01 In 1971 Paul Harris pioneered the modern version of the black rage defense when he successfully defended a young black man charged with armed bank robbery. Dubbed one of the most novel criminal defenses in American history by *Vanity Fair*, the black rage defense is enormously controversial, frequently dismissed as irresponsible, nothing less than a harbinger of anarchy. Consider the firestorm of protest that resulted when the defense for Colin Ferguson, the gunman who murdered numerous passengers on a New York commuter train, claimed it was considering a black rage defense. In this thought-provoking book, Harris traces the origins of the black rage defense back through American history, recreating numerous dramatic trials along the way. For example, he recounts in vivid detail how Clarence Darrow, defense attorney in the famous Scopes Monkey trial, first introduced the notion of an environmental hardship defense in 1925 while defending a black family who shot into a drunken white mob that had encircled their home. Emphasizing that the black rage defense must be enlisted responsibly and selectively, Harris skillfully distinguishes between applying an environmental defense and simply blaming society in the abstract for individual crimes. If Ferguson had invoked such a defense in Harris's words, it would have sent a superficial, wrong-headed blame everything on racism message. Careful not to succumb to easy generalizations, Harris also addresses the possibilities of a white rage defense and the more recent phenomenon of cultural defenses. He illustrates how a person's environment can and does affect his or her life and actions, how even the most rational person can become criminally deranged when bludgeoned into hopelessness by exploitation, racism, and relentless poverty. *The Pains of Mass Imprisonment* Benjamin Fleury-Steiner, Jamie Longazel, 2025-07-30 This

engaging book presents a critical approach to understanding prison conditions in the United States in the era of mass incarceration. Fleury-Steiner and Longazel do this by weaving together empirical research on prisons with stories that rely on the voices and lived experiences of people who are locked up. This is an ideal book for courses in corrections, social problems, criminology, and prisoner re-entry. The new edition of *The Pains of Mass Imprisonment* dramatically expands and revises the previous edition to include more empirical data, significant engagement with current debates, and scholarship and extended pedagogical and learning materials. **106-2 Hearing: Aimee's Law, Matthew's Law, Two Strikes And You're Out**
