

Grade 11 November Exam Scope

Mathematics:

Paper 1 – 2,5 hours

1. Exponents
2. Surds
3. Equations and inequalities, completing the square
4. Nature of roots
5. Number Patterns
6. Functions – straight line, parabola, hyperbola, exponential graphs
7. Finance
8. Probability – 3 circle Venn diagrams, tree diagrams, contingency tables, independent events

Paper 2 – 2,5 hours

1. Analytical geometry
2. Trigonometry – reduction formulae, equations, identities, trig on the Cartesian plane
3. Trig graphs
4. Circle Euclidean geometry
5. Statistics
6. Trigonometry – solving triangles using SOH CAH TOA, sin rule, cos rule and area rule
7. Measurement

Life Sciences

Paper 1 – 2,5 hours

1. Supporting systems and movement in animals – human skeleton, joints, and muscles.
2. Transport in animals – the human circulatory system, heart structure, blood vessels, blood, and lymph as a tissue.
3. Excretion in humans and the urinary system.
4. The Human nervous system
 - The nervous systems
 - The brain, spinal cord, and reflex arc
 - Nerve tissue and transmission of nerve impulses
 - Receptors

Life Sciences Final Exam Paper Scope:

Trends in Teaching Experimentation in the Life Sciences Nancy J. Pelaez, Stephanie M. Gardner, Trevor R. Anderson, 2022-05-11 This book is a guide for educators on how to develop and evaluate evidence based strategies for teaching biological experimentation to thereby improve existing and develop new curricula It unveils the flawed assumptions made at the classroom department and institutional level about what students are learning and what help they might need to develop competence in biological experimentation Specific case studies illustrate a comprehensive list of key scientific competencies that unpack what it means to be a competent experimental life scientist It includes explicit evidence based guidelines for educators regarding the teaching learning and assessment of biological research competencies The book also provides practical teacher guides and exemplars of assignments and assessments It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain This book contributes to the growth of public understanding of biological issues including scientific literacy and the crucial importance of evidence based decision making around public policy It will be beneficial to life science instructors biology education researchers and science administrators who aim to improve teaching in life science departments Chapters 6 12 14 and 22 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) SET Life Science: Solved Exam Questions Kailash Choudhary, D. Sondge, R.P. Saran, N. Soni, 2017-12-01 The present book SET Life Science Solved Papers is specially developed for the aspirants of SET Life Sciences Examinations This book includes previous solved papers SET Life Science papers of Maharashtra Andhra Pradesh Karnataka Tamil Nadu Kerala Gujarat and Rajasthan Main objective of this book is to develop confidence among the candidates appearing for SET examination in the field of Life Sciences Both fundamental and practical aspects of the subject have been covered by solved questions This book meets the challenging requirements of CSIR NET GATE IARI BARC and Ph D entrance of various Indian universities *Life Sciences Research and Scientific Writing* Benno ter Kuile, 2024-06-11 Scientific writing is a trade that can and must be learned and not a form of art that is limited to the talented The real constraint for writing a good scientific article is most of the time not the usage of the English language but the conversion of outcomes of a set of experiments into a coherent and convincing scientific story This book is designed to guide junior scientists in the Life Sciences writing their thesis and first manuscripts along this uphill struggle All aspects of building up and publishing a forceful scientific narrative are covered from designing experiments to dealing with the reviewers comments This book takes you step by step through the process of writing a paper It starts by discussing how to collect and organize data and make an outline The actual writing starts with the Results section as this is the heart of any research paper The Discussion interprets your data in the framework of the existing literature and explains the novel insights you obtained The Introduction is written to pose the questions that are answered in the Discussion and give the necessary background information It is written after the Results and Discussion to make sure it is a perfect match The M M is the

easiest to write A good abstract is essential for attracting readers How to write that is described in detail The title is the last piece of the puzzle The book contains many practical examples that explain the general principles of good writing These examples are all from the Life Sciences and so are the anecdotes that illustrate the concepts making the information directly applicable All kinds of tips and suggestions are provided for improving readability and accessibility of your manuscript thus making it easier acceptable In addition background information on the basics of science is supplied that helps to avoid common mistakes that cause rejection of manuscripts that report on otherwise good science

Author's Handbook of Styles for Life Science Journals Michel Atlas,1995-11-08 Let the Author's Handbook of Styles for Life Science Journals save you time and trouble by providing a one stop resource for all your manuscript writing requirements No more plowing through your journal collection or wandering the library stacks to get those elusive journal pages containing instructions to authors This unique book contains all the information you need to know whether the journal will consider your manuscript the journal's submission address how to construct the abstract illustrations tables and references and specific information on copyright multiple authorship statistical analyses and page charges The Author's Handbook of Styles for Life Science Journals gives all this information for 440 of the most important English language life science journals Titles were selected from the Journal Rankings by Times Cited list in the Science Citation Index Journal Citation Report Because this report is heavily weighted toward the medical sciences other life science journals are incorporated into the book based on general level of prestige and reputation In addition some new titles that promise to be important to their fields like Nature Medicine and Emerging Infectious Diseases are also included Organized by journal title the handbook's entries are uniformly arranged to allow direct comparison between journals Information is presented in an easy to use easy to read format with clear and explicitly stated instructions The Author's Handbook of Styles for Life Science Journals gives authors in the life sciences all the information necessary for the correct and complete compilation of a manuscript for submission to their journal of choice

Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges Jonathan E. Suk, Kathleen M. Vogel, Amanda Jane Ozin, 2015-06-04

In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and

international perspectives How to Be a Scientist Roslyn A. Kemp, Deborah M. Brown, 2023-11-06 Many undergraduate students choose a science degree but are not aware of how science and research work in the real world We explain the processes of collecting sharing and most importantly critical analysis of scientific research with a focus on the life sciences This book explains how scientific research is conceived carried out and analysed It outlines how research findings are constantly evolving and why that is exciting and important Students using this textbook will learn how to design experiments explain their data and analyse and interpret the work of others They will learn to think about broader aspects of science such as bias and ethics They will gain practical skills including understanding the use of statistical tests and how to prepare an effective presentation Active individual and class exercises provide opportunities for students to think about difficult concepts in science and research and to include their own perspectives Key Features Encourages discussion and critical thinking using individual and class exercises Provides real world examples and context for difficult concepts Allows students to assess their understanding with practical exercises and examples Documents a variety of career options and opportunities from studying science Permits students to advocate for science with suggestions for creating and sharing research Related Titles Barrass R Students Must Write A Guide to Better Writing in Coursework and Examinations 3rd ed ISBN 978 0 415 35826 2 Zlatanova J What Is Science Myths and Reality ISBN 978 0 367 46523 0 Walters D E G C Walters Scientists Must Speak 2nd ed ISBN 978 1 4398 2603 4 Barrass R Scientists Must Write A Guide to Better Writing for Scientists Engineers and Students 2nd ed ISBN 978 0 415 26996 4 **The Software Encyclopedia** ,1986 **Pharmaceutical Journal** ,1900

Managing IT in Construction/Managing Construction for Tomorrow Attila Dikbas, Esin Ergen, Heyecan Giritli, 2009-09-15 Managing IT in Construction Managing Construction for Tomorrow presents new developments in Managing IT strategies Model based management tools including building information modeling Information and knowledge management Communication and collaboration Data acquisition and storage Visualization and simulation Architectural design and Multiple Literacy and Science Education: ICTs in Formal and Informal Learning Environments Rodrigues, Susan, 2009-12-31 This book explores various learning mediums and their consequences within a classroom context to synchronize understanding within the schooling fields Provided by publisher **Valuation of Ecosystem Services from Nordic Watersheds** David N. Barton, Nordic Council of Ministers, 2012-02-29 The emergence of the ecosystem services concept suggests that economic valuation studies are already fulfilling a role in raising awareness by demonstrating the loss of nature s goods and services using monetary indicators In order to have future relevance in capturing value and giving support to policy makers valuation methods must specifically address resource accounting priority setting and instrument design This report provides an overview of economic valuation methods of ecosystem services from watersheds in the Nordic countries The study was commissioned by the Nordic Council of Ministers and conducted by The Norwegian Institute for Nature Research The Norwegian Institute of Water Research and Sweco Norge during the period May November 2011 The

study indicates that economic valuation methods can be applied to watershed management in multiple ways However policy makers should be wary of one size fits all valuation estimates that appear ready to use across different watershed types and stakeholder interests **Toward a Science of Clinical Psychology** Cory L. Cobb, Steven Jay Lynn, William

O'Donohue, 2023-01-01 This book pays tribute to Scott O Lilienfeld of Emory University a leading scholar in the field of clinical science who has made important contributions to a wide range of central topics including definition of the field cognitive biases and critical thinking memory personality and personality disorders projective testing and its problems cultural sensitivity and issues like microaggressions forensic psychology and neuroscience among others His writings are known for their clarity their astute critical frame their fairness and their intellectual courage in the face of controversy This anthology serves as a thorough introduction to the scientific evolution of clinical psychology collecting contributions from leading authorities in each of these domains to comment on past and future insights made possible by Scott Lilienfeld's work
