The Political Geographies of Pregnancy Laura R. Woliver, 2010-10-01 A searing study of how modern reproductive politics shapes women's bodily agency Pregnancy indisputably takes place within a woman's body But as reproductive power finds its way into the hands of medical professionals lobbyists and policymakers the geographies of pregnancy are shifting and the boundaries need to be redrawn argues Laura R Woliver *The Political Geographies of Pregnancy* is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption surrogacy arrangements new reproductive technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women's struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women's perspectives in discussions about legislation and advancements in reproductive technologies

The Big Sort Bill Bishop,Robert G. Cushing,2009 America may be more diverse than ever coast to coast but the places where we live are becoming increasingly crowded with people who live think and vote as we do We ve built a country where we can all choose the neighborhood and church and news show most compatible with our lifestyle and beliefs And we are living with the consequences of this way of life segregation Our country has become so polarized so ideologically inbred that people don t know and can t understand those who live just a few miles away The reason for this situation and the dire implications for our country is the subject of this groundbreaking work From publisher description **Forbidden**

Knowledge Terence H. Young,2023-02-21 Terence Young exposes the pharmaceutical industry secrets and cultural myths that thwart our safe use of prescription drugs Everyone should read it before their next visit to a doctor DR NANCY OLIVIERI MD physician and professor When it comes to drug safety Big Pharma holds all the power and it s time for patients to take it back Tens of millions of patients in North America take prescription drugs but the safety of these drugs is often based on medical myths We are led to believe that if a medication isn t safe the government would never allow it on the market and that doctors would never prescribe a drug that isn t proven effective Who controls these narratives And do they always have the best interests of patients in mind In an in depth study of the enormous influence the pharmaceutical industry has over our health drug safety advocate Terence Young explores how those with the most to gain financially are also those who wield all the power in health care and withhold the knowledge that is critical to the safety of patients Forbidden Knowledge reveals the truth you need to know about prescription drugs and what to do about it It will empower you to partner with your doctor to talk openly and plainly about medications to help avoid serious adverse drug reactions This is your survival guide to Big Pharma

researchers creating new treatments Prasad reveals how cell therapies are advancing to treat childhood leukemia and a form of lymphoma how a gene therapy was established to treat the rare disease spinal muscular atrophy type I and potentially curative therapies that are being developed for sickle cell disease By examining the clinical trial and regulatory paths each therapy took to reach approval Prasad uncovers the building blocks of biotechnology innovation and the investments that must be made to catalyze the development of future breakthroughs He also explores issues of scientific communication and misinformation providing recommendations for improvements in the future For those seeking to understand the vitally important processes that lead to new medicines and the surrounding ecosystem that is enabling the next generation of innovative medicines with the potential to transform patient outcomes *Building Breakthroughs* is essential reading

21st-Century Statecraft Nayef Al-Rodhan, 2022-07-28 From civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion the 21st century requires a new approach to statecraft In *21st Century Statecraft* Professor Nayef Al Rodhan proposes five innovative statecraft concepts He makes the case for a new method of geopolitical analysis called meta geopolitics and for dignity based governance He shows how in an interdependent and interconnected world traditional thinking must move beyond zero sum games and focus on multi sum and symbiotic realist interstate relations This requires a new paradigm of global security premised on five dimensions of security and a new concept of power just power which highlights the centrality of justice to state interests These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft Throughout Professor Al Rodhan brings his philosophical and neuroscientific expertise to bear providing a practical model for conducting statecraft in a sustainable way *Resources in Education* , 1997-10 **Conversion of Former BTW Facilities** Erhard Geissler, Lajos G. Gázsó, Ernst Buder, 1998-09-30 The development production stockpiling and use in war of biological and toxin weapons are prohibited by international law Although not explicitly stated the two treaties outlawing such activities the Geneva Protocol of 1925 and the Biological and Toxin Weapons Convention of 1972 prohibit the continuation of activities previously performed in Biological and Toxin Weapons facilities not justified for prophylactic protective or other peaceful purposes Because conversion and other means of cessation of former BTW facilities are not explicitly addressed in the treaties mentioned above the problems involved in conversion of BTW facilities have thus far only been discussed marginally in the open literature In times of increased awareness of the danger of biological and toxin warfare including the increased danger of terrorist use of biological and toxin weapons it seemed necessary to us to invite experts from different parts of the world to discuss the pros and cons of conversion and the problems involved It also became obvious to us that the conversion of former BTW facilities should be discussed with respect to the necessity of peaceful international cooperation in areas related to the Biological and Toxin Weapons Convention An additional reason to discuss matters of peaceful cooperation is that cooperation is explicitly requested by Article X of the Biological and Toxin Weapons Convention *Euro Abstracts* , 1994
