## PAPER-1 AND MEMORANDUM

# Life Sciences Paper 1 November 2014 Memo

**Bruce Appleyard**

## **Life Sciences Paper 1 November 2014 Memo:**

**Global Social Policy** Kepa Artaraz, Liz Cunningham, Michael Hill, 2016-06-29 Social policy is a subject that helps develop our understanding of the meaning of human wellbeing and of the systems by which wellbeing must be promoted. As a discipline, social policy has traditionally been blunted by a focus on the nation state; however, in this age of globalisation, the most pressing challenges such as climate change, ageing populations and flagging economies serve as proof that even at national level, social policy is now more heavily influenced by global factors than ever before. In this important and authoritative text, Kepa Artaraz and Michael Hill provide a richly detailed contribution to our understanding of the global forces shaping social problems today. Part One discusses the different approaches to social policy and explores the process of globalisation, looking particularly at its winners and losers and the implications it has for human wellbeing. Part Two examines more closely the key actors in global social policy, such as the market, the state and international organisations, and Part Three provides an opportunity to explore some specific key issues of global importance, such as employment and migration, demographic change and global poverty. Adding considerable momentum to the movement away from a reductionist, nationally focused study of the discipline, *Global Social Policy* opens up new and stimulating discussions and provides a fresh framework for the study of human wellbeing. Using policy examples from areas around the world to provide a truly international scope, it is an essential read for students studying at all levels. **Arab Dawn** Bessma

Momani, 2015-11-26 In the West, news about the Middle East is dominated by an endless stream of reports and commentary about civil war, sectarian violence, religious extremism and economic stagnation. But do they tell the full story? For instance, who knew that university enrolment in the war-torn Palestinian territories exceeds that of Hong Kong, or that more than a third of Lebanese entrepreneurs are women? Change is on its way in the Middle East, argues Bessma Momani, and its cause is demographic. Today, one in five Arabs is between the ages of fifteen and twenty-four. Young, optimistic and increasingly cosmopolitan, their generation will shape the region's future. Drawing on interviews, surveys and other research conducted with young people in fifteen countries across the Arab world, Momani describes the passion for entrepreneurship, reform and equality among Arab youth. With insightful political analysis based on the latest statistics and first-hand accounts, *Arab Dawn* is an invigorating study of the Arab world and the transformative power of youth. *Assured Destruction* David

Bath, 2020-03-15 *Assured Destruction: Building the Ballistic Missile Culture of the U.S. Air Force* documents the rapid development of nuclear ballistic missiles in the United States and their equally swift demise after the Cuban Missile Crisis, revealing how these drastic changes negatively influenced both the Air Force and the missile community. David W. Bath contends that the struggle to create and control nuclear ballistic missiles threatened both the dominance of the United States during an intensifying Cold War and the strategic airpower mission of the newly created Air Force. The book details the strenuous efforts required to create and prepare a missile arsenal before the Cuban Missile Crisis, which occurred only five

years after the first missile was declared operational It uses the personal recollections of former missileers and the professional military education theses they wrote to highlight some of the concerns that have faced the missileers who operated and worked on these powerful weapons from 1957 to the present The highlight of the book however is the personal stories of the missileers who served during the missile crisis revealing the efforts that they went to in order to prepare these unique and untried weapons for what many thought might become the third world war **Governomics** Ian

McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well funded health system to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We've grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn't have to be this way *Governomics* shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you're not sure that's true read this book Ross Gittins Sydney Morning Herald and The Age *Governomics* shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow University of Queensland

*MAPPING CONFLICT IN CHITTAGONG HILL TRACTS 1997-2014* Zahid ul Arefin Choudhury, 2020-04-27 The issue of the Chittagong Hill Tracts is as divisive as the region itself At one end there are tales of woe how the original inhabitants of the region are being evicted from their land through violence and trickery their marginalization and elimination of their traditional way of life simultaneously while it is being exoticized for tourism These accounts however paint a static picture where the members of these ethnic groups are victims always and without any agency Consequently these accounts fail to hold up in front of close examination and invites counter opinion rage that the Bengali and other ethnicities of CHT are prevented from living in harmony by disruptive elements within the society that the oppression and repression of the hill peoples are made up stories that feed national and international conspiracies In *Conflict Mapping in the Chittagong Hill Tracts* researchers from the Department of Peace and Conflict Studies at the University of Dhaka cut through this fog of confusion by presenting dispassionate unornamented data With the help of original data and systematic analysis they show how the social life of CHT is marked by deep polarization both within and across the ethnic divide how it is beset by real and perceived accounts of discrimination and by lack of confidence on state agencies and the rule of law They also investigate the trajectory of major cases of violence in the region in the past two decades and reveal that these have a common escalation pattern with various points marked by missed opportunities for prevention Based on a study that draws from a large survey of a cross section of people from 8 of the most crime prone Upazilas of the region semi structured interview of selected elites and analysis of the dynamics of 14 incidents of large scale violence between 1997 and 2014 this book aims at initiating a

healthy constructive conversation on the issue It challenges long held prejudices common sense beliefs and unsubstantiated propaganda By offering the lens of social science the book invites readers with well meaning but vague opinions as well as consumers of zealous and spoon fed ideas to form informed and nuanced opinion

**Risk Regulation in the Internal Market** Maria Weimer, 2019-03-13 This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies surrounded by techno scientific complexity uncertainty and societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity

*How Data Happened: A History from the Age of Reason to the Age of Algorithms* Chris Wiggins, Matthew L. Jones, 2023-03-21 Fascinating Jill Lepore The New Yorker A sweeping history of data and its technical political and ethical impact on our world From facial recognition capable of checking people into flights or identifying undocumented residents to automated decision systems that inform who gets loans and who receives bail each of us moves through a world determined by data empowered algorithms But these technologies didn t just appear they are part of a history that goes back centuries from the census enshrined in the US Constitution to the birth of eugenics in Victorian Britain to the development of Google search Expanding on the popular course they created at Columbia University Chris Wiggins and Matthew L Jones illuminate the ways in which data has long been used as a tool and a weapon in arguing for what is true as well as a means of rearranging or defending power They explore how data was created and curated as well as how new mathematical and computational techniques developed to contend with that data serve to shape people ideas society military operations and economies Although technology and mathematics are at its heart the story of data ultimately concerns an unstable game among states corporations and people How were new technical and scientific capabilities developed who supported advanced or funded these capabilities or transitions and how did they change who could do what from what and to whom Wiggins and

Jones focus on these questions as they trace data s historical arc and look to the future By understanding the trajectory of data where it has been and where it might yet go Wiggins and Jones argue that we can understand how to bend it to ends that we collectively choose with intentionality and purpose

2016 GUIDELINES FOR INVESTIGATING GEOLOGIC HAZARDS AND PREPARING ENGINEERING-GEOLOGY REPORTS, WITH A SUGGESTED APPROACH TO GEOLOGIC-HAZARD ORDINANCES IN UTAH

Steve D. Bowman, William R. Lund, 2016-09-21 The purpose of these guidelines for investigating geologic hazards and preparing engineering geology reports is to provide recommendations for appropriate minimum investigative techniques standards and report content to ensure adequate geologic site characterization and geologic hazard investigations to protect public safety and facilitate risk reduction Such investigations provide important information on site geologic conditions that may affect or be affected by development as well as the type and severity of geologic hazards at a site and recommend solutions to mitigate the effects and the cost of the hazards both at the time of construction and over the life of the development The accompanying suggested approach to geologic hazard ordinances and school site investigation guidelines are intended as an aid for land use planning and regulation by local Utah jurisdictions and school districts respectively Geologic hazards that are not accounted for in project planning and design often result in additional unforeseen construction

and or future maintenance costs and possible injury or death

### **Shared Governance for Sustainable Working**

**Landscapes** Timothy M. Gieseke, 2016-08-05 Sustaining our agricultural landscapes is no longer just a technical scientific or even political problem but it has evolved into a socially complex so called wicked problem of conflicting social governance and economics This creates an extreme economic obstacle where the value of ecosystem services remains low and diffuse and the transactions costs remain high and multiple Using Uber like business platform technology and a shared governance model a symbiotic demand for environmental benefits is created Enabling multi sector transactions for environmental benefits this platform innovation would remedy the tragedy of the commons the economic nemesis to achieving landscape sustainability In a nutshell to sustain our agricultural landscapes a transdisciplinary approach supported by a shared governance model housed within a multi sided platform is needed This book introduces an assessment framework identifying governance actors styles and ratios for socio ecological systems The assessment uses a new governance compass to identify the types of actors completing which tasks and identifies the styles of governance used to complete the tasks It is aimed to anyone involved in sustainability science agricultural policy planning or integrated landscape design

### **Milton Friedman**

Jennifer Burns, 2023-11-14 An Economist Best Book of 2023 One of The New York Times 33 Nonfiction Books to Read This Fall Named a most anticipated fall book by the Chicago Tribune and Bloomberg Finalist for the 2024 Hayek Book Prize Wherever you sit on the political spectrum there s a lot to learn from this book More than a biography of one controversial person it s an intellectual history of twentieth century economic thought Greg Rosalesky NPR s Planet Money The first full biography of America s most renowned economist Milton Friedman was alongside John Maynard Keynes the most influential economist of the twentieth century His work was instrumental in the turn toward free markets that defined the 1980s and his full throated defenses of capitalism and freedom resonated with audiences around the world It s no wonder the last decades of the twentieth century have been called the Age of Friedman or that analysts have sought to hold him responsible for both the rising prosperity and the social ills of recent times In Milton Friedman the first full biography to employ archival sources the historian Jennifer Burns tells Friedman s extraordinary story with the nuance it deserves She provides lucid and lively context for his groundbreaking work on everything from why dentists earn less than doctors to the vital importance of the money supply to inflation and the limits of government planning and stimulus She traces Friedman s long standing collaborations with women including the economist Anna Schwartz his complex relationships with powerful figures such as the Federal Reserve chairman Arthur Burns and the Treasury secretary George Shultz and his direct interventions in policymaking at the highest levels Most of all Burns explores Friedman s key role in creating a new economic vision and a modern American conservatism The result is a revelatory biography of America s first neoliberal and perhaps its last great conservative

### **Science, Gender and the Exploitation of Animals in Britain Since 1945**

Catherine Duxbury, 2021-09-30 This book offers an historical analysis of the culture of animal dependent science in Britain from 1945 to

the present exploring key areas of animal experimentation such as warfare medical science and law from a gendered perspective Questioning the nature of knowledge production in this area and how animal experimentation intersects with broader cultural norms and values concerning sex and gender it examines the impact of contemporary forms of capitalism on animal dependent science its historical trajectory and gendered configuration With close attention to the broad social context from the creation of the Welfare State and the loss of Empire to the emergence of neoliberalism in the 1980s and its present day omnipotent manifestation the author asks how animal experimentation and the use of nonhuman animals in specific areas of science is gendered and has implications for women Drawing on a variety of sociological philosophical feminist and historical theories and engaging with a wealth of primary and secondary materials of scientific research of the time *Science Gender and the Exploitation of Animals in Britain Since 1945* contends that there is a persistent gendered ideology of animal use which remains inscribed within the policies of the British neoliberal state As such it will appeal to scholars of sociology history and philosophy with interests in gender and the treatment of nonhuman animals *Outclassed* Joan C.
