darkness are far from being universally condemnable in fiction drama and poetry the darkness of the night allows not only nightmares but also dreams it allows criminals to ply their trade and allows lovers to meet it allows the pursuit of pleasure as well as deep thought it allows metamorphoses transformations and transgressions unthinkable in the light of day But night is not merely darkness The night gains significance as an alternative space as an other of the day only when it is at least partially illuminated The volume examines the interconnection of night darkness and nocturnal illumination across a broad range of literary texts The individual essays examine historically specific light conditions in literature tracing the symbolic and metaphoric content of darkness and illumination and the attitudes towards them **Teaching the Art of Cosmetics**
