DIAGNOSTICS

The alarm condition is always signalled by the buzzer (if present) and by the led of the alarm icon.

The alarm signal produced by a faulty room probe (probe 1) is shown as E1 on the instrument display 1.

INSTALLATION

The instrument is designed for flush panel mounting. Insert the unit through a 71x29 mm panel cut-out and affix with the U-bracket supplied.

Select a location which will not be subject to high humidity or condensation and allow some ventilation to provide cooling to the instrument.

ELECTRICAL CONNECTIONS

Attention! Never work on electrical connections when the machine is switched on. The instrument is equipped with screw terminal boards for connection of electrical cables with a diameter of 2.5 mm² (one conductor only per terminal for power connections). For the capacity of the terminals, see the label on the instrument. Relay outputs are voltage free. Do not exceed the maximum permissible current – in case of higher loads, use a contactor of adequate power. Make sure that the supplied voltage matches the values specified for the instrument.

In the versions supplied on 12V, the power supply must be provided via a safety transformer protected by a 250 mA delayed fuse. The probes do not have any insertion polarity and can be lengthened by using a normal bipolar cable (note that if the probes are lengthened, this will affect the behaviour of the instrument in terms of EMC electro-magnetic compatibility – wiring must be done with great care). We advise you to keep the probe and supply cables well away from the power cables.

CONDITIONS OF USE

PERMITTED USE

For safety reasons the instrument must be installed and used according to the instruction provided and in particular, under normal conditions, parts bearing dangerous voltage levels must not be accessible.

The device must be adequately protected from water and dust as per the application and must also only be accessible via the use of tools (with the exception of the frontset).

The device is ideally suited for use on household appliances and/or similar refrigeration equipment and has been tested with regard to the aspects concerning European reference standards on safety.
