analyses criminal procedural issues from a European perspective particularly in connection with EU law and ECHR law As
such it differs from previous works which on the one hand generally focus only on EU law and on the other address both
procedural and substantial aspects as a result of which the former receive inadequate attention Indeed criminal procedural
matters in the European context have now reached a level of complexity but also of maturity that shows the features of a
great design which even if not yet defined in all its aspects appears sufficiently articulated to deserve to be explained in a
systematic way The book offers a guidance for practitioners academics and students alike It covers a broad range of topics
from the complex system of the sources of law to the multilevel protection of fundamental rights from vertical and horizontal
judicial and police cooperation to the instruments of mutual recognition primarily the European Arrest Warrant but also the
European Investigation Order the execution of confiscation orders the ne bis in idem principle the conflicts of jurisdiction and
the enforcement of judgements The book also reflects the latest regulation on the establishment of the European Public
