

MARK SCHEME for the October/November 2012 series

0500 FIRST LANGUAGE ENGLISH

0500/11

Paper 1 (Reading Passage – Core), maximum raw mark 50

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, OCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Minority Language Planning and Micronationalism in Italy Paolo Coluzzi,2007 Issues of language planning and minority nationalism or micronationalism are becoming increasingly important in a globalized world Yet minority language planning in Italy and its relation to minority nationalism has so far attracted relatively limited academic attention despite the particularly interesting changes that have taken place since Law 482 on the protection of minority languages was passed in 1999 This book presents the situation in Italy in three case studies and compares them with similar cases in Spain Friulian compared with Galician Cimbrian compared with Aranese and Western Lombard compared with Asturian Analysis of these case studies is preceded by a clear and thorough introduction to terminology legislation in the two countries nationalism the discipline of language planning and bilingual education both in general terms and with specific reference to the Italian and Spanish cases This first part introduces and defines the crucial distinction between minority and regional languages between macro and micronationalism both in their conservative and progressive strands and between majority and minority language planning among other things

Heritage and School Language Literacy Development in Migrant Children Raphael Berthele,Amelia Lambelet,2017-11-15 This book discusses literacy development in heritage language speakers and presents the results of four different quantitative studies that investigate the transfer of literacy skills in bi and multilingual language development The empirical studies focus on different populations of pupils most of them located in various parts of Switzerland and emphasise the potential residing in shared or transferred resources between their heritage languages and the languages spoken in the region to which their family has immigrated The goal of all studies was to gain an understanding of the factors both linguistic and non linguistic in nature that contribute to the development of language skills in both the heritage and school languages Theoretical assumptions are put to the test via hypothesis testing and the generally shared assumptions on bilingual education are questioned based on the data

Furthermore methodological problems in the investigation of linguistic interdependence are discussed This book contributes to the scholarly investigation of potential beneficial effects in academic proficiency across languages in migrant children
