Bujosa Vadell,2024-10-21 This volume examines how innovation and digital transformation impact the financial and accounting sectors Featuring selected contributions from the third Finance Accounting and Law in the Digital Age conference 2024 held at the University of Salamanca Spain the contributions of this book explore the development of digital finance and the complicated equation between financial stability the security of investors and financial consumers sustainable finance and support for innovation Climate change and the exponential growth of technology have built an explosion of financial innovation The digital revolution has recently reached the financial sector protected by a specific regulatory environment The volume describes how all areas of finance are now invested by new players who are transforming the banking and financial landscape to create a novel digital ecosystem **2012-2013 Class Trip Directory** Gail Velez,2012 A directory of day overnight and travel trips for school scout and homeschool groups with themed trip lesson plans to increase the learning experiences *The Complete Book of Colleges, 2013 Edition* Princeton Review,2012-08-07 Profiles every four year college in the United States providing detailed information on academic programs admissions requirements financial aid services housing athletics contact names and campus life *Ambitious and Anxious* Yingyi Ma,2020-02-18 Winner 2021 Best Book Award Comparative and International Education Society Higher Education Special Interest Group Winner 2021 Best Book Award Comparative and International Education Society Study Abroad and International Studies Special Interest Group Honorable Mention 2021 Pierre Bourdieu Award for the Best Book in Sociology of Education Section on the Sociology of Education American Sociological Association Over the past decade a wave of Chinese international undergraduate students mostly self funded has swept across American higher education From 2005 to 2015 undergraduate enrollment from China rose from under 10 000 to over 135 000 This privileged yet diverse group of young people from a changing China must navigate the complications and confusions of their formative years while bridging the two most powerful countries in the world How do these students come to study in the United States What does this experience mean to them What does American higher education need to know and do in order to continue attracting these students and to provide sufficient support for them In *Ambitious and Anxious* the sociologist Yingyi Ma offers a multifaceted analysis of this new wave of Chinese students based on research in both Chinese high schools and American higher education institutions Ma argues that these students experiences embody the duality of ambition and anxiety that arises from transformative social changes in China These students and their families have the ambition to navigate two very different

educational systems and societies Yet the intricacy and pressure of these systems generate a great deal of anxiety from applying to colleges before arriving to studying and socializing on campus and to looking ahead upon graduation Ambitious and Anxious also considers policy implications for American colleges and universities including recruitment student experiences faculty support and career services

Primary Science Education in East Asia Yew-Jin Lee, Jason Tan, 2018-09-26 This edited volume is a state of the art comparison of primary science education across six East Asian regions namely the People s Republic of China Republic of Korea Republic of China Hong Kong SAR Japan and Singapore While news of educational policies classroom teaching assessment and other educational innovations here often surface in the international media this book brings together for the first time relevant information regarding educational systems and strategies in primary science in East Asia Above all it is a readable yet comprehensive survey readers would have an accurate sense of what has been accomplished what has not worked so well and what remains to be done Invited experts in comparative education research and or science education also provide commentary by discussing common themes across the six regions These types of critical synoptic reviews add much value by enabling readers to understand broad commonalities and help synthesize what must surely be a bewildering amount of very interesting albeit confusing body of facts issues and policies Education in East Asia holds many lessons both positive and negative to offer to the rest of the world to which this volume is a timely contribution to the literature
