Study and Master Life Sciences Grade 11 CAPS Learner's Book Annemarie Gebhardt, Peter Preethlall, Sagie Pillay, Bridget Farham, 2012-09-05 Study Master Life Sciences Grade 11 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement CAPS. This new and easy to use course helps learners to master essential content and skills in Life Sciences. The comprehensive Learner's Book includes an expanded contents page indicating the CAPS coverage required for each strand, a mind map at the beginning of each module that gives an overview of the contents of that module, activities throughout that help develop learners' science knowledge and skills, as well as Formal Assessment tasks to test their learning, a review at the end of each unit that provides for consolidation of learning, case studies that link science to real life situations and present balanced views on sensitive issues, information boxes providing interesting additional information, and Note boxes that bring important information to the learner's attention. **Whose History Counts** June Bam, Lungisile Ntsebeza, Allan Zinn, 2018-11-29 Originally planned as a fact based book on the pre colonial history of the Eastern Cape in the true tradition of history, this ground breaking book focuses on epistemological and foundational questions about the writing of history and whose history counts. Whose History Counts challenges the very concept of pre colonial and explores methodologies on researching and writing history. The reason for this dramatic change of focus is attributed in the introduction of the book to the student led rebellion that erupted following the Rhodes Must Fall campaign which started at the University of Cape Town on 9 March 2015. Key to the rebellion was the students' opposition to what they dubbed colonial education and a clamour for among others a decolonised curriculum. This book is a direct response to this clarion call. **Life Sciences** J.
