Hatcher, 2015-10-05 Hinduism in the Modern World presents a new and unprecedented attempt to survey the nature range and significance of modern and contemporary Hinduism in South Asia and the global diaspora Organized to reflect the direction of recent scholarly research this volume breaks with earlier texts on this subject by seeking to overcome a misleading dichotomy between an elite intellectualist modern Hinduism and the rest of what has so often been misleadingly termed traditional or popular Hinduism Without neglecting the significance of modern reformist visions of Hinduism this book reconceptualizes the meaning of modern Hinduism both by expanding its content and by situating its expression within a larger framework of history ethnography and contemporary critical theory This volume equips undergraduate readers with the tools necessary to appreciate the richness and diversity of Hinduism as it has developed during the past two centuries

**Unifying Hinduism** Andrew J. Nicholson, 2013-12-01 Some postcolonial theorists argue that the idea of a single system of belief known as Hinduism is a creation of nineteenth century British imperialists Andrew J Nicholson introduces another perspective although a unified Hindu identity is not as ancient as some Hindus claim it has its roots in innovations within South Asian philosophy from the fourteenth to seventeenth centuries During this time thinkers treated the philosophies of Vedanta Samkhya and Yoga along with the worshippers of Visnu Siva and Sakti as belonging to a single system of belief and practice Instead of seeing such groups as separate and contradictory they re envisioned them as separate rivers leading to the ocean of Brahman the ultimate reality Drawing on the writings of philosophers from late medieval and early modern traditions including Vijnanabhiksu Madhava and Madhusudana Sarasvati Nicholson shows how influential thinkers portrayed Vedanta philosophy as the ultimate unifier of diverse belief systems This project paved the way for the work of later Hindu reformers such as Vivekananda Radhakrishnan and Gandhi whose teachings promoted the notion that all world religions belong to a single spiritual unity In his study Nicholson also critiques the way in which Eurocentric concepts like monism and dualism idealism and realism theism and atheism and orthodoxy and heterodoxy have come to dominate modern discourses on Indian philosophy

Samuel Brainard, 2017-10-15 Science religion philosophy these three categories of thought have organized humankind's search for meaning from time immemorial Reality's Fugue presents a compelling case that these ways of understanding often seen as competing are part of a larger puzzle that cannot be rendered by one account of reality alone This book begins with an overview of the concept of reality and the

philosophical difficulties associated with attempts to account for it through any single worldview By clarifying the differences among first person third person and dualist understandings of reality F Samuel Brainard repurposes the three predominant ways of making sense of those differences exclusionist only one worldview can be right inclusivist viewing other worldviews through the lens of one in order to incorporate them all and thus distorting them and pluralist or relativist holding that there are no universals and truth is relative His alternative mode of understanding uses Douglas Hofstadter s metaphor of a musical fugue that allows different voices and melodies of worldviews to coexist in counterpoint and conversation while each remains distinct with none privileged above the others Approaching reality in this way Brainard argues opens up the possibility for a multivoiced perspective that can overcome the skeptical challenges that metaphysical positions face Engagingly argued by a lifelong scholar of philosophy and global religions this edifying and accessible exploration of the nature of reality addresses deeply meaningful questions about belief reconciliation and being *Global Hindu Diaspora* Kalpana Hirallal, 2017-08-22 This book examines Hinduism from both a historical and contemporary perspective It provides some interesting insights into factors that shaped and defined Hinduism in the diaspora It also examines the challenges facing Hinduism in the twenty first century In recent years the growing conversions of Hindus to other religions the complexities of caste the impact of AIDS and the need to reinvigorate the youth in Hindu teachings are just some of the issues that it faces What shape and form will Hinduism take in the twenty first century What will Hinduism look like in the future These relevant questions are the subject of debate and deliberations amongst religious scholars academics and politicians This edited collection addresses some of these questions as well as the relationship between religion and diaspora within historical and contemporary perspectives *International Handbook of Migration, Minorities and Education* Zvi Bekerman, Thomas Geisen, 2011-10-06 Migrants and minorities are always at risk of being caught in essentialized cultural definitions and being denied the right to express their cultural preferences because they are perceived as threats to social cohesion Migrants and minorities respond to these difficulties in multiple ways as active agents in the pedagogical political social and scientific processes that position them in this or that cultural sphere On the one hand they reject ascribed cultural attributes while striving towards integration in a variety of social spheres e g school and workplace in order to achieve social mobility On the other hand they articulate demands for cultural self determination This discursive duality is met with suspicion by the majority culture For societies with high levels of migration or with substantial minority cultures questions related to the meaning of cultural heterogeneity and the social and cultural limits of learning and communication e g migration education or critical multiculturalism are very important It is precisely here where the chances for new beginnings and new trials become of great importance for educational theorizing which urgently needs to find answers to current questions about individual freedom community cultural affiliations and social and democratic cohesion Answers to these questions must account for both political and learning perspectives at the macro mezzo and micro contextual levels The

contributions of this edited volume enhance the knowledge in the field of migrant minority education with a special emphasis on the meaning of culture and social learning for educational processes
