Engaging whole-class and small-group activities using written verbal, image, three-dimensional, and technology responses study skills for locating, recording, and using information tools for assessing student understanding and explanations of the text features that organize information within the text structures, and mini-lessons for whole-class, small-group, and independent application of students' text structure knowledge. Examples, photographs, student samples, and graphic organizers support your teaching, and a bibliography of professional books and resources for locating leveled non-fiction texts make this a complete ready-to-use guide for improving student comprehension.
