Repenser le Droit public Serge Surin, 2013-03-27T00:00:00Z Les nombreux bouleversements qu'ont connus depuis la fin de la Première Guerre mondiale les fondements traditionnels de ce qu'on appelle aujourd'hui tant le droit public tant le droit administratif tant les deux en même temps conduisent tout penseur de la discipline juridique telle qu'elle est conçue et aménagée en France repenser ce droit qui n'est en réalité qu'un seul et un tout indivisible le droit public ou publico administratif Cette pensée ou repensée du droit public revient en permanence dans le visage du juriste publiciste chaque fois qu'il est frappé d'un nouveau coup de boule soit sous l'effet du droit positif ou droit positif celui issu en général de la loi soit sous l'effet de la jurisprudence administrative venant tant du Conseil d'État que du Tribunal des conflits laquelle jurisprudence essaie tant bien que mal soit de lutter contre soit de s'adapter l'encore tant bien que mal aux différents vagues de bouleversements Dans la mesure où les juristes et penseurs du droit public ne semblent pas réaliser ou ne veulent tout simplement pas voir ou admettre la vraie source du tourment permanent que connaît ce droit cet ouvrage se permet modestement de donner pour objectif de repenser les fondements de ce droit partir des éléments exemples ou éléments postulés d'abord par ses penseurs classiques pour ne pas dire conservateurs En effet il semble que et cela a déjà été montré plusieurs reprises notamment par Bertrand Seiller les thèses des deux écoles dites de la puissance publique d'une part et du service public d'autre part si elles nous sont toujours

utiles comme point de départ de la pensée du droit public sont largement dépassés par les bouleversements qui ne cessent de frapper ce droit. Ces bouleversements ont pour origine le droit privé ou plus exactement l'intrusion du droit privé dans la sphère du droit public qu'on croyait pourtant bien solide. Les penseurs du droit public ont bien sûr reconnu que le problème du droit public c'est le droit privé. Mais ils ne l'abordent pas sous cet angle. Cet ouvrage va ainsi essayer de l'appréhender. C'est-à-dire de montrer que le droit public est un droit là, merci du droit privé. *General course on private international law*, 1979-11-05

Over the course of the twentieth century, however, they drifted apart. International Relations largely retained the focus on the affairs and relations of these principal international actors but took a methodological turn, leading to higher levels of theoretical abstraction. History, on the other hand, retained the methods that define the discipline but shifted the focus, veering away from matters of state to the vast array of actors, events, activities and issues that colour everyday life. In recent years, the drift has been arrested by scholars in each discipline who have turned towards the other discipline in their

research International Relations has undergone a historiographical turn while History has taken an international turn Rise of the International brings together scholars of International Relations and History to capture the emergence and development of the thought the relations and the systems that have come to be called international in western discourse The evidence offered by contributors to the volume suggests there has been no single stable unchanging concept or object of theoretical reflection or historical investigation that can be called the international but a variety of historically contingent conceptualizations across different contexts

Revival: Law in the Modern State (1921) Leon Duguit, 2018-01-16 It is perhaps worth explaining why there is a special importance in the present development of the theory of the State Law like every social phenomenon is subject to perpetual change indeed any scientific study of law must necessarily involve an analysis of the evolution of legal institutions In a sense therefore the transformation of the state is also the transformation of its law But we must go a little deeper The real justification of this book is the immediate situation of political theory Just as every living being has moments in its existence when even while obeying the general law of its life it undergoes a change that is especially fundamental in importance so it is in the history of peoples
