

A TEACHER'S GUIDE TO *The Lemonade War*

BY JACQUELINE DAVIES

About the Book

Fourth-grader Evan Treski is people-smart. He's good at talking with people, even grownups. His younger sister, Jessie, on the other hand, is math-smart, but not especially good with people. So when the siblings' lemonade stand war begins, there really is no telling who will win—or even if their fight will ever end. Brimming with savvy marketing tips for making money at any business, definitions of business terms, charts, diagrams, and even math problems, this fresh, funny, emotionally charged novel subtly explores how arguments can escalate beyond anyone's intent.

Special Features

The title of each chapter in *The Lemonade War* is a business term or concept, with its definition just below (for example, "Chapter 1: Slump n. a drop in the activity or a business or the economy").

- Economic concepts are defined throughout the book as Jessie investigates, researches, and develops her own ideas.
- Each chapter contains examples of Evan's and Jessie's attempts to calculate sales, profits, expenses, etc. Readers may choose to study the math problems in depth, working them out on their own, or may choose to read on.
- In addition to the math problems and definitions, the book contains some wonderful charts, diagrams, and newspaper clippings, and even a realistic sales receipt. This lovely touch engages the reader and fleshes out the Treskis' story.

Discussion questions

Any of the following questions might be presented as an essay topic as well.

- Have you ever felt competitive with someone you are close to, like a sibling or a good friend? How was this embodied? What did you do? How was it resolved?
- Evan is so angry with his sister he can barely stand it! Has Jess consciously done anything to harm her brother? Explain the root of Evan's anger.
- Jacqueline Davies chose to create Evan and Jess as characters that don't fit the stereotypes of boy and girl, in terms of both their academic strengths and challenges and their social strengths and challenges. Do you think that these stereotypes (girls are intuitive but not good at math, boys are good at math but not so good at reading people's feelings) get in the way at your school?
