entrepreneur who wants to take her invention innovation or creation from an idea to the marketplace Authors Mina Yoo and Hilary Meyerson offer practical advice to any woman looking to take an invention from idea to market Walking you through the entire process they offer encouragement success stories of other female inventors and concrete guidance to help readers realize their dreams of invention Inventing and innovation is a hot topic and this book coauthored by a woman who created a successful business that started as a sketch on a cocktail napkin offers a helping hand through the invention process without intimidation or undue complication **Penetration Tester's Open Source Toolkit** Jeremy Faircloth,2016-09-20

Continuing a tradition of excellent training on open source tools Penetration Tester's Open Source Toolkit Fourth Edition is a great reference to the open source tools available today and teaches you how to use them by demonstrating them in real world examples This book expands upon existing documentation so that a professional can get the most accurate and in depth test results possible Real life scenarios are a major focus so that the reader knows which tool to use and how to use it for a variety of situations This updated edition covers the latest technologies and attack vectors including industry specific case studies and complete laboratory setup Great commercial penetration testing tools can be very expensive and sometimes hard to use or of questionable accuracy This book helps solve both of these problems The open source no cost penetration testing tools presented work as well or better than commercial tools and can be modified by the user for each situation if needed Many tools even ones that cost thousands of dollars do not come with any type of instruction on how and in which situations the penetration tester can best use them Penetration Tester's Open Source Toolkit Fourth Edition bridges this gap providing the critical information that you need Details current open source penetration tools Presents core technologies for each type of testing and the best tools for the job New to this edition expanded wireless pen testing coverage to include Bluetooth coverage of cloud computing and virtualization new tools and the latest updates to tools operating systems and techniques Includes detailed laboratory environment setup new real world examples and industry specific case studies

Air Transport in the 21st Century John F. O'Connell,George Williams,2016-12-05 Airlines are buffeted by fluctuating political and economic landscapes ever changing competition technology developments globalization increasing deregulation and evolving customer requirements As a consequence all sectors of the air transport industry are in a constant state of flux The principle aim of this book is to review current trends in the airline industry and its related suppliers thereby providing an insight into the forces that are changing its dynamics The factors that are reshaping the structure of the industry are examined with a view to identifying the key issues whose impact will be critical in the future The book features two very

distinct sections The first contains short contributions from industry executives at CEO VP level from airlines aircraft engine manufacturers safety and navigational provider organisations who have set out their take of where the airline industry is heading This commercial input sets the scene for the book and provides the bridge to the second section which is composed of 18 chapters written by distinguished academic authors Each chapter presents a valuable insight into a specific area of the air transport industry including airlines airports cargo deregulation the environment navigation strategy information technology security and tourism The shared objective of the authors is to describe and explain the core competencies that are determining the current shape of the industry and to examine the forces that will change its direction going forward The book is written in a management style and will appeal to all levels of personnel who work for airlines across the world It is also written for airport authorities aerospace manufacturers regulatory and government transportation agencies researchers and students of aviation management transport studies tourism and the wider air transport industry
