Guide broadcaster Sean Moncrieff takes us through the history and development of the twenty largest religions in the world in the process demonstrating that the truth is far more compelling than the fictional accounts In the name of religion millions have been killed and millions have been saved Political dynasties have been built on the back of religious belief or been destroyed because of them The history of religion is one of tyranny betrayal sacrifice generosity and faith where the same facts have often brought believers to dramatically different conclusions From religions which have a multiplicity of Gods to religions which have no God at all God A Users Guide demonstrates how the vast majority of the world s religions did not develop in isolation but were influenced by already existing belief systems We have far more in common than you might think
