Cooking in Europe, 1250-1650 Ken Albala, 2006-06-30

Ever get a yen for hemp seed soup, digestive pottage, carp fritters, Jasper of Milk, or frog pie? Would you like to test your culinary skills whipping up some edible counterfeits, snow, or nun's bozolati? Perhaps you have an assignment to make a typical Renaissance dish. The cookbook presents 171 unadulterated recipes from the Middle Ages, Renaissance, and Elizabethan eras. Most are translated from French, Italian, or Spanish into English for the first time. Some English recipes from the Elizabethan era are presented only in the original if they are close enough to modern English to present an easy exercise in translation. Expert commentary helps readers to be able to replicate the food as nearly as possible in their own kitchens. An introduction overviews cuisine and food culture in these time periods and prepares the reader to replicate period food with advice on equipment, cooking methods, finding ingredients, and reading period recipes. The recipes are grouped by period and then type of food or course. Three lists of recipes organized by how they appear in the book and by country and by special occasions in the frontmatter help to quickly identify the type of dish desired. Some recipes will not appeal to modern tastes or sensibilities. This cookbook does not sanitize them for the modern palate. Most everything in this book is perfectly edible and, according to the author, noted food historian Ken Albala, delicious.

Sallets, Humbles & Shrewsbury Cakes Ruth Anne Beebe, 1976

This Elizabethan cookbook contains recipes for the preparation of meats and vegetables as well as other recipes. As in the Elizabethan style, it also describes the recipe at length. Taken from foreword.

Why are the plots of Shakespeare and his contemporaries so different from those of his predecessors? This book argues that the answer is in part that certain forms of expectation were largely undeveloped in the medieval period. More broadly, it suggests that many of the causal and temporal thought processes that are second nature to us operated very differently or had not been developed in the minds of most medieval people. And conversely, it suggests that other mental faculties such as the ability to respond to some of the elemental appeal of poetry may have become dulled.

by the post renaissance rationalist emphasis in our culture In addition to drawing on a broad range of etymological and literary evidence from the 10th century Gnostic verses to 16th century drama the book delves into medieval history and draws many anthropological parallels This is a significant study in the nature of narrative and an important investigation into the mental and cultural worlds of Shakespeare and his predecessors **A History of English Food** Clarissa Dickson Wright, 2011-10-13 In this magnificent guide to England's cuisine the inimitable Clarissa Dickson Wright takes us from a medieval feast to a modern day farmers market visiting the Tudor working man's table and a Georgian kitchen along the way Peppered with surprises and seasoned with wit A History of England Food is a classic for any food lover *North Carolina Classics* Carole Marsh, 1997
