More extensive regulations, new technologies, and new means of communication have significantly changed the financing landscape for startups and small to medium-sized companies (SMEs). This volume provides a contemporary research-based overview of the latest trends in entrepreneurial finance and outlines expected future developments. Starting with the status quo in market regulations and the financing structure of SMEs, it addresses a broad range of new financing alternatives for innovative startups, e.g., business angel financing, venture capital, and corporate venture capital, as well as recent social phenomena, e.g., crowdfunding and initial coin offerings (ICOs).
