Internet Children's Television Series, 1997-2015 Vincent Terrace, 2016-08-22 Created around the world and available only on the web internet television series are independently produced mostly low budget shows that often feature talented but unknown performers Typically financed through crowd funding they are filmed with borrowed equipment and volunteer casts and crews and viewers find them through word of mouth or by chance The fifth in a series focusing on the largely undocumented world of internet TV this book covers 573 children's series created for viewers 3 to 14 The genre includes a broad range of cartoons CGI live action comedies and puppetry Alphabetical entries provide websites dates casts credits episode lists and storylines

Lost Laughs of '50s and '60s Television David C. Tucker, 2010-04-19 Originally broadcast on American television between 1952 and 1969 the 30 situation comedies in this work are seldom seen today and receive only brief and often incomplete and inaccurate mentions in most reference sources Yet these sitcoms including *Angel The Governor* and *J J It's a Great Life I m Dickens He's Fenster and Wendy and Me* and the stories of the talented people who made them are an integral part of television history With a complete list of production credits and rare publicity stills this volume based on multiple screenings of episodes corrects other sources and expand our knowledge of television history

The Transmedia Franchise of Star Wars TV Dominic J. Nardi, Derek R. Sweet, 2020-11-11 While previous work on the *Star Wars* universe charts the Campbellian mythic arcs political representations and fan reactions associated with the films this volume takes a transmedial approach to the material recognizing that *Star Wars* TV projects interact with and relate to other *Star Wars* texts The chapters in this volume take as a basic premise that the televisual entrants into the *Star Wars* transmedia storyworld are both important texts in the history of popular culture and also key to understanding how the *Star Wars* franchise and thus industry wide transmedia storytelling strategies developed The book expands previous work to consider television studies and sharp cultural criticism together in an effort to bring both long running popular series long ignored texts and even toy commercials to bear on the franchise's complex history
