US of AA Joe Miller, 2019-04-02 In the aftermath of Prohibition America s top scientists joined forces with AA members and put their clout behind a campaign to convince the nation that alcoholism is a disease They had no proof but they hoped to find it once research money came pouring in The campaign spanned decades and from it grew a multimillion dollar treatment industry and a new government agency devoted to alcoholism But scientists research showed that problem drinking is not a singular disease but a complex phenomenon requiring an array of strategies There s less scientific evidence for the effectiveness of AA than there is for most other treatments including self enforced moderation therapy and counseling and targeted medications AA s own surveys show that it doesn t work for the overwhelming majority of problem drinkers Five years in the making Joe Miller s brilliant in depth investigative reporting into the history politics and science of alcoholism shows exactly how AA became our nation s de facto treatment policy even as evidence accumulated for more effective remedies and how as a result those who suffer the most often go untreated

US of AA is a character driven beautifully written expos full of secrecy irony liquor industry money the shrillest of scare tactics and at its center a grand deception In the tradition of *Crazy* by Pete Earley and David Goldhill s *Catastrophic Care* **US of AA** shines a much needed spotlight on the addiction treatment industry It will forever change the way we think about the entire enterprise
