A. Intro to Graphs of Quadratic Equations: $y = ax^2 + bx + c$

- A _____ is a function that can be written in the form $y = ax^2 + bx + c$ where a , b , and c are real numbers and $a \neq 0$. Ex: $y = 5x^2$ $y = -2x^2 + 7$ $y = x^2 - x - 3$
- The graph of a quadratic function is a U-shaped curve called a _____. The maximum or minimum point is called the _____.

B. Key Features of a Parabola:

$$y = ax^2 + bx + c$$

- Direction of Opening:** When $a > 0$, the parabola opens _____;
When $a < 0$, the parabola opens _____.
- Width:** When $|a| < 1$, the parabola is _____ than $y = x^2$.
When $|a| = 1$, the parabola is the _____ width as $y = x^2$.
When $|a| > 1$, the parabola is _____ than $y = x^2$.
- Vertex:** The highest or lowest point of the parabola is called the vertex, which is on the axis of symmetry. To find the vertex, plug in $x = \frac{-b}{2a}$ and solve for y . This yields a point (____, ____).
- Axis of symmetry:** This is a vertical line passing through the vertex. Its equation is: $x = \frac{-b}{2a}$.
- x-intercepts:** are the 0, 1, or 2 points where the parabola crosses the x-axis. Plug in $y = 0$ and solve for x .

Factoring Tribunals Chapter 4:

Atrocity, Punishment, and International Law Mark A. Drumbl, 2007-04-30 This book argues that accountability for extraordinary atrocity crimes should not uncritically adopt the methods and assumptions of ordinary liberal criminal law Criminal punishment designed for common criminals is a response to mass atrocity and a device to promote justice in its aftermath This book comes to this conclusion after reviewing the sentencing practices of international national and local courts and tribunals that punish atrocity perpetrators Sentencing practices of these institutions fail to attain the goals that international criminal law ascribes to punishment in particular retribution and deterrence Fresh thinking is necessary to confront the collective nature of mass atrocity and the disturbing reality that individual membership in group based killings is often not maladaptive or deviant behavior but rather adaptive or conformist behavior This book turns to a modern and adventurously pluralist application of classical notions of cosmopolitanism to advance the frame of international criminal law to a broader construction of atrocity law and towards an interdisciplinary contextual and multicultural conception of justice

systematically analyses the private international law issues regarding private antitrust damages claims which arise out of transnational competition law infringements. It identifies those problems that need to be considered by injured parties, defendants, judges and policy makers when dealing with cross border private antitrust damages claims in a global context. It considers the post Brexit landscape and the implications in cross border private proceedings before the English courts and suggests how the legal landscape should be developed. It also sets out how private international law techniques could play an increasingly important role in private antitrust enforcement. Comprehensive and rigorous, this is required reading for scholars of both competition litigation and private international law. *Global War Crimes Tribunal Collection: The Rwanda Tribunal*, 1997. *International Investment Law and Arbitration* C. Assessing the Effectiveness of International Courts Yuval Shany, 2014. During the last 20 years the world has experienced a sharp rise in the number of international courts and tribunals and a correlative expansion of their jurisdictions. This book draws on social sciences to provide a clear goal orientated assessment of their effectiveness and a critical evaluation of the quality of their performance. *The U.S. Singapore Free Trade Agreement* Manuel F. Casanova, 2005. On 31 July 2003 the Senate and on July 24 the House passed H R 2739 United States Singapore Free Trade Agreement Implementation Act which is to implement the U S Singapore Free Trade Agreement FTA. The FTA would with a phase in period eliminate tariffs on all goods traded between the United States and Singapore, cover trade in services and protect intellectual property rights. The agreement has received support from the business community and consumer organisations but has been criticised by labour and some environmental interests. Some of the specific concerns raised deal with the restrictions on penalties for unresolvable disputes over labour and environmental issues, the Integrated Sourcing Initiative, potential capital controls, temporary visas and access for U S exports of chewing gum. Since Singapore is a relatively small economy the economic effects of the U S Singapore Free Trade Agreement by themselves are not likely to be great. Free trade interests who would benefit from more liberalised trade, particularly in services and labour, or anti globalisation interests who oppose more FTAs because of the overall impact of imports on jobs and the general effects of globalisation on income distribution, certain jobs and the environment. Specific provisions of the agreement also have generated debate. This book discusses the problems and issues that the Free Trade Agreement has brought up. **The Adjudicator's Toolkit and the Force of International Law** Nicola Strain, 2024-07-01. Adjudicators have been placed at the forefront in the search for systemic order within the pluralist international legal order, acting as guardians of the international legal system. Yet they do so under increasing pressure from the governments. Based on one of the most comprehensive and systematic empirical and doctrinal studies of international trade and investment adjudication, this book asks which tools adjudicators turn to when faced with this dilemma. Dr Nicola Strain provides new insights on the design choices and normative goals of international economic adjudication, explaining

how adjudicators end up consistently inconsistent in their application of international law even within the more technocratic WTO regime
