George Seldes' War for the Public Good Helen Fordham, 2019-11-14 This book examines the idea of fake news through an analysis of the work of early to mid twentieth century press critic George Seldes By examining fake news also known as propaganda and misinformation from this period it becomes evident that it is a phenomenon that emerges in response to particular social political and economic conditions It is therefore not a new process but always a feature of the media ecosystem Seldes work makes evident that contemporary anxieties about the role function future and credibility of journalism were expressed in the 1930s and 1940s The same fears were circulated about the consequences of fake news and propaganda on democratic debate The same concerns were also expressed about how
