1. Suggest a simple question or hypothesis for the students to explore in their investigation.

The earthquake in Haiti destroyed the primary water supply from the river?

The first part of this response is good although there is a bit of a mix of words to show that, which could be improved to make the point clear and give a second mark for this point. The second part of this response is good about the river and the subsequent water treatment, 1 mark.

Do not leave things unsimplified. Looking at the river and the subsequent water treatment, 1 mark.
