

Problem B Together II

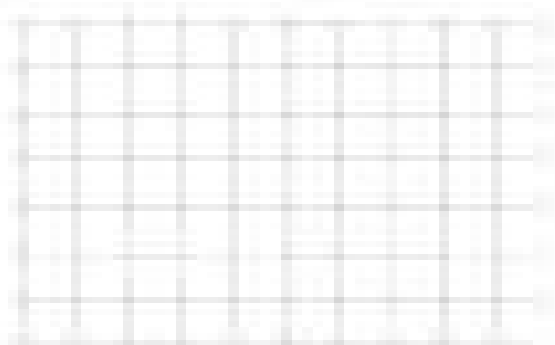

Water testing is particularly important before construction starts on your system for its water-related features. For example, on Saturdays, Captain takes water samples and considers both milligrams of copper and the cost they find at the hardware and chemical stores system (all in).

Suppose that each day, Captain's laboratory takes half of the amount in last system from the city before. Suppose this pattern continues for half, and graph the water-related data.

15. Table of Data

Number of Days (from Saturday)	mg of Copper (in Captain's system)

16. Graph of Data

17. What are the independent and dependent variables in the problem situation?

18. What are the domain and range of the problem situation?

19. Is the graph of the data increasing or decreasing?
