Slavery and the University Leslie M. Harris, James T. Campbell, Alfred L. Brophy, 2019-02 Slavery and the University is the first edited collection of scholarly essays devoted solely to the histories and legacies of this subject on North American campuses and in their Atlantic contexts Gathering together contributions from scholars activists and administrators the volume combines two broad bodies of work 1 historically based interdisciplinary research on the presence of slavery at higher education institutions in terms of the development of proslavery and antislavery thought and the use of slave labor and 2 analysis on the ways in which the legacies of slavery in institutions of higher education continued in the post Civil War era to the present day The collection features broadly themed essays on issues of religion economy and the regional slave trade of the Caribbean It also includes case studies of slavery's influence on specific institutions such as Princeton University Harvard University Oberlin College Emory University and the University of Alabama Though the roots of Slavery and the University stem from a 2011 conference at Emory University the collection extends outward to incorporate recent findings As such it offers a roadmap to one of the most exciting developments in the field of U S slavery studies and to ways of thinking about racial diversity in the history and current practices of higher education

South Carolina Lighthouses Margie Willis Clary, Kim McDermott, 2008 Boasting one of the oldest lighthouses in North America and the most working lighthouses today South Carolina has a long seafaring history In 1767 the Morris Island Lighthouse was built at the entrance to Charleston Harbor and before 1860 there were lighthouses in Georgetown Cape Romain Bull's Bay and Hunting Island During the Civil War all lighthouses on the eastern coast were darkened Many were destroyed After the war towers that had been damaged were repaired and additional lights were erected on Daufuskie and Hilton Head Islands In 1962 the new Charleston Light on Sullivan's Island replaced the Morris Island Lighthouse which was suffering from erosion by the ever encroaching sea The new light contained an elevator and two rotating beacons capable of producing 28 million candlepower a light that can be seen 26 miles out to sea At that time it was considered one of the most powerful lights in the Western Hemisphere

Slavery's Capitalism Sven Beckert, Seth Rockman, 2016-07-28 During the nineteenth century the United States entered the ranks of the world's most advanced and dynamic economies At the same time the nation sustained an expansive and brutal system of human bondage This was no mere coincidence Slavery's Capitalism argues for slavery's centrality to the emergence of American capitalism in the decades between the Revolution and the Civil War According to editors Sven Beckert and Seth Rockman the issue is not whether slavery itself was or was not capitalist but rather the impossibility of understanding the nation's spectacular pattern of economic development without situating slavery front and center American capitalism renowned for its celebration of market competition private property and the self-made man has its origins in an American slavery predicated on the abhorrent notion that human beings could be legally owned and compelled to work under force of violence Drawing on the expertise of sixteen scholars who are at the forefront of rewriting the history of American

economic development Slavery s Capitalism identifies slavery as the primary force driving key innovations in entrepreneurship finance accounting management and political economy that are too often attributed to the so called free market Approaching the study of slavery as the originating catalyst for the Industrial Revolution and modern capitalism casts new light on American credit markets practices of offshore investment and understandings of human capital Rather than seeing slavery as outside the institutional structures of capitalism the essayists recover slavery s importance to the American economic past and prompt enduring questions about the relationship of market freedom to human freedom Contributors Edward E Baptist Sven Beckert Daina Ramey Berry Kathryn Boodry Alfred L Brophy Stephen Chambers Eric Kimball John Majewski Bonnie Martin Seth Rockman Daniel B Rood Caitlin Rosenthal Joshua D Rothman Calvin Schermerhorn Andrew Shankman Craig Steven Wilder **This Bright Era of Happy Revolutions** Robert J. Alderson,2008 As French consul to the Carolinas and Georgia Citizen Mangourit was dispatched in 1792 to capitalize on the fledgling alliance between the young republics as opportunity to spread the French Revolution into Spanish holdings in the Floridas and Louisiana In his analysis of the public and clandestine activities of Mangourit during his short tenure in Charleston Alderson presents a case study of the challenge given to U S republicanism by its French counterpart Mangourit tapped into a wide range of support for the French Revolution and its implications for South Carolina drawing support for his cause from well off planters and disenfranchised groups of backcountrymen slaves and women In the end he was recalled before the invasion projects could be carried out French and American republicanism quickly diverged and the French lost their best opportunity to reclaim their empire in North America Aldersons study shows that the tension between republicanism and self interest could be resolved at the local level but republicanism could not be the only basis for national relations **America** ,1914
