Gone with the Wind Mr. Sebastian Acevedo Mejia, 2016-10-14 This paper studies the economic costs of hurricanes in the Caribbean by constructing a novel dataset that combines a detailed record of tropical cyclones characteristics with reported damages I estimate the relation between hurricane wind speeds and damages in the Caribbean finding that the elasticity of damages to GDP ratio with respect to maximum wind speeds is three in the case of landfalls The data show that hurricane damages are considerably underreported particularly in the 1950s and 1960s with average damages potentially being three times as large as the reported average of 1.6 percent of GDP per year I document and show that hurricanes that do not make landfall also have considerable negative impacts on the Caribbean economies Finally I estimate that the average annual hurricane damages in the Caribbean will increase between 22 and 77 percent by the year 2100 in a global warming scenario of high CO2 concentrations and high global temperatures

[New Approaches to Gone With the Wind](#), 2015-12-14. Since its publication in 1936, *Gone with the Wind* has held a unique position in American cultural memory, both for its particular vision of the American South in the age of the Civil War and for its often controversial portrayals of race, gender, and class. *New Approaches to Gone with the Wind* offers neither apology nor rehabilitation for the novel and its Oscar-winning film adaptation. Instead, the nine essays provide distinct, compelling insights that challenge and complicate conventional associations. Racial and sexual identity form a cornerstone of the collection. Mark C. Jerng and Charlene Regester each examine Margaret Mitchell's reframing of traditional racial identities and the impact on audience sympathy and engagement. Jessica Sims mines Mitchell's depiction of childbirth for what it reveals about changing ideas of femininity in a postplantation economy, while Deborah Barker explores transgressive sexuality in the film version by comparing it to the depiction of rape in D. W. Griffith's earlier silent classic *Birth of a Nation*. Other essays position the novel and film within the context of their legacy and their impact on national and international audiences. Amy Clukey and James Crank inspect the reception of *Gone with the Wind* by Irish critics and gay communities, respectively. Daniel Cross, Turner Keaghan, Turner, and Rich Richardson consider its aesthetic impact and mythology and the ways that contemporary writers and artists, such as Natasha Trethewey and Kara Walker, have engaged with the work. Finally, Helen Taylor sums up the pervading influence that *Gone with the Wind* continues to exert on audiences in both America and Britain. Through an emphasis on intertextuality, sexuality, and questions of audience and identity, these essayists deepen the ongoing conversation about the cultural impact and influence of this monumental work. Flawed in many ways yet successful beyond its time, *Gone with the Wind* remains a touchstone in southern studies.
