History Paper 2 Memorandum Grade 12 November 2014:

The Irish Civil War and Society G. Foster, 2015-02-18 The Irish Civil War and Society sheds new light on the social currents shaping the Irish Civil War from the politics of respectability behind animosities and discourses to the intersection of social conflicts with political violence to the social dimensions of the war's messy aftermath *Withdrawal* Gregory A. Daddis, 2017-09-01 A better war Over the last two decades this term has become synonymous with US strategy during the Vietnam War's final years The narrative is enticingly simple appealing to many audiences After the disastrous results of the 1968 Tet offensive in which Hanoi's forces demonstrated the failures of American strategy popular history tells of a new American military commander who emerged in South Vietnam and with inspired leadership and a new approach turned around a long stalemated conflict In fact so successful was General Creighton Abrams in commanding US forces that according to the better war myth the United States had actually achieved victory by mid 1970 A new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in Washington DC who turned their backs on the US armed forces and their South Vietnamese allies In a bold new interpretation of America's final years in Vietnam acclaimed historian Gregory A Daddis disproves these longstanding myths *Withdrawal* is a groundbreaking reassessment that tells a far different story of the Vietnam War Daddis convincingly argues that the entire US effort in South Vietnam was incapable of reversing the downward trends of a complicated Vietnamese conflict that by 1968 had turned into a political military stalemate Despite a new articulation of strategy Abrams's approach could not materially alter a war no longer vital to US national security or global dominance Once the Nixon White House made the political decision to withdraw from Southeast Asia Abrams's military strategy was unable to change either the course or outcome of a decades long Vietnamese civil war In a riveting sequel to his celebrated *Westmoreland's War* Daddis demonstrates he is one of the nation's leading scholars on the Vietnam War *Withdrawal* will be a standard work for years to come

China as a Twenty-First Century Naval Power Michael A McDevitt, 2020-10-15 Xi Jinping has made his ambitions for the People's Liberation Army PLA perfectly clear there is no mystery what he wants first that China should become a great maritime power and secondly that the PLA become a world class armed force by 2050 He wants this latter objective to be largely completed by 2035 China as a Twenty First Century Naval Power focuses on China's navy and how it is being transformed to satisfy the world class goal Beginning with an exploration of why China is seeking to become such a major maritime power author Michael McDevitt first explores the strategic rationale behind Xi's two objectives China's reliance on foreign trade and overseas interests such as China's Belt and Road strategy In turn this has created concerns within the senior levels of China's military about the vulnerability of its overseas interests and maritime life lines is a major theme McDevitt dubs this China's sea lane anxiety and traces how this has required the PLA Navy to evolve from a near seas focused navy to one that has global reach a blue water navy He details how quickly this transformation has taken place thanks to a patient step by step approach and abundant

funding The more than 10 years of anti piracy patrols in the far reaches of the Indian Ocean has acted as a learning curve accelerator to blue water status McDevitt then explores the PLA Navy s role in the South China Sea and the Indian Ocean He provides a detailed assessment of what the PLAN will be expected to do if Beijing chooses to attack Taiwan potentially triggering combat with America s first responders in East Asia especially the U S Seventh Fleet and U S Fifth Air Force He conducts a close exploration of how the PLA Navy fits into China s campaign plan aimed at keeping reinforcing U S forces at arm s length what the Pentagon calls anti access and area denial A2 AD if war has broken out over Taiwan or because of attacks on U S allies and friends that live in the shadow of China McDevitt does not know how Xi defines world class but the evidence from the past 15 years of building a blue water force has already made the PLA Navy the second largest globally capable navy in the world This book concludes with a forecast of what Xi s vision of a world class navy might look like in the next fifteen years when the 2035 deadline is reached

At Sea Against the Soviet Fleet Bryan H. Leese, 2025-10-14

At Sea Against the Soviet Fleet is a history of the evolution of the United States Navy s Operational Intelligence culture that informs great power competition with China today At Sea Against the Soviet Fleet examines the critical transformation of naval intelligence during a pivotal era marked by the Cold War and the Vietnam conflict Bryan Leese meticulously details how U S Navy operational intelligence evolved to meet the complexities of modern naval warfare particularly in response to the increasing threats posed by the Soviet Navy Structured into four main parts this book begins by examining the Vietnam War and the institutionalization of shipboard operational intelligence or what Navy intelligence calls Opintel The book highlights the establishment of Integrated Operational Intelligence Centers as part of the RA 5C Vigilante program and the innovative strategies that emerged in air combat and targeting Leese goes on to underscore the necessity of Opintel to the U S Navy s close and distant blockade strategy in the 1960s and 1970s He delves into the decentralization of intelligence processes emphasizing the importance of adaptability and the need to prevent surprise attacks This evolution is framed within the transition to the Navy s Ocean Surveillance Information System a decentralized and responsive operational intelligence system The ongoing developments of shipboard intelligence capabilities are explored demonstrating how these advancements empowered naval commanders In the 1970s the organizations evolved as the revolutionary Opintel adaptations of the 1960s that leveraged cooperation without hierarchy became formalized Leese highlights the revolution to evolution process by introducing Opintel support to shipboard tactical decisions to integrate operational intelligence into comprehensive naval strategies Capturing the essence of this transformative period the author discusses the cultural dynamics within the Navy that fostered innovation and interdepartmental collaboration These developments not only contributed to maintaining a strategic edge over the Soviet Union but also laid the groundwork for future naval operations in the digital age Leese s work reveals the intricate interplay between technology strategy and personnel in creating an effective intelligence framework that allows the U S Navy to assert influence at sea setting conditions for sea control in

conflict By blending rich archival research with firsthand accounts this book offers a nuanced understanding of how the Navy adapted to an ever changing operational landscape ultimately preserving peace while navigating the complexities of high stakes maritime conflict

Medicine, health and Irish experiences of conflict, 1914-45 David Durnin,Ian Miller,2016-10-28 This book explores Irish experiences of medicine and health during the First and Second World Wars the War of Independence and the Civil War It examines the physical mental and emotional impact of conflict on Irish political and social life as well as medical scientific and official interventions in Irish health matters The contributors put forward the case that warfare and political unrest profoundly shaped Irish experiences of medicine and health and that Irish political social and economic contexts added unique contours to those experiences not evident in other countries In pursuing these themes the book offers an original and focused intervention into a central but so far unexplored area of Irish medical history

Working-Class Utopias Robert M. Fogelson,2022-10-18 One of the nation's foremost urban historians traces the history of cooperative housing in New York City from the 1920s through the 1970s As World War II ended and Americans turned their attention to problems at home union leaders and other prominent New Yorkers came to believe that cooperative housing would solve the city's century old problem of providing decent housing at a reasonable cost for working class families Working Class Utopias tells the story of this ambitious movement from the construction of the Amalgamated Houses after World War I to the building of Co op City the world's largest housing cooperative four decades later Robert Fogelson brings to life a tumultuous era in the life of New York drawing on a wealth of archival materials such as community newspapers legal records and personal and institutional papers In the early 1950s a consortium of labor unions founded the United Housing Foundation under the visionary leadership of Abraham E Kazan who was supported by Nelson A Rockefeller Robert F Wagner Jr and Robert Moses With the help of the state which provided below market rate mortgages and the city which granted tax abatements Kazan's group built large scale cooperatives in every borough except Staten Island Then came Co op City built in the Bronx in the 1960s as a model for other cities but plagued by unforeseen fiscal problems culminating in the longest and costliest rent strike in American history Co op City survived but the United Housing Foundation did not and neither did the cooperative housing movement Working Class Utopias is essential reading for anyone seeking to understand the housing problem that continues to plague New York and cities across the nation

Robber Barons and Wretched Refuse Robert F. Zeidel,2020-04-15 Robber Barons and Wretched Refuse explores the connection between the so called robber barons who led American big businesses during the Gilded Age and Progressive Era and the immigrants who composed many of their workforces As Robert F Zeidel argues attribution of industrial era class conflict to an alien presence supplements nativism a sociocultural negativity toward foreign born residents as a reason for Americans

dislike and distrust of immigrants And in the era of American industrialization employers both relied on immigrants to meet their growing labor needs and blamed them for the frequently violent workplace contentions of the time Through a sweeping narrative Zeidel uncovers the connection of immigrants to radical isms that gave rise to widespread notions of alien subversives whose presence threatened America s domestic tranquility and the well being of its residents Employers rather than looking at their own practices for causes of workplace conflict wontedly attributed strikes and other unrest to aliens who either spread pernicious foreign doctrines or fell victim to their siren messages These characterizations transcended nationality or ethnic group applying at different times to all foreign born workers Zeidel concludes that ironically stigmatizing immigrants as subversives contributed to the passage of the Quota Acts which effectively stemmed the flow of wanted foreign workers Post war employers argued for preserving America s traditional open door but the negativity that they had assigned to foreign workers contributed to its closing Shadow Networks Francisco Louçã, Michael

Ash, 2018-10-03 The 2007 08 financial crisis surprised many economists and the public But how did the crisis come about why was it so deep and why has the clean up been so slow and painful Many accounts of the crisis focus on renegade activity in marginal financial sectors Shadow Networks challenges this pervading view and sets out to demonstrate that far from a dissident branch the shadow finance that initiated the crisis is tightly networked with and highly profitable for bank based finance The collapse was not an accident but baked into the system of finance from the start Shadow Networks traces the complex web of power that caused crisis and gives vivid descriptions of the actors in the quarter century leading up to 2007 to explain how the now decade long crisis took shape Shadow Networks Financial Disorder and the System that Caused Crisis is a probing examination of the roles of the powerful elite It traces the networks and institutions that support a finance focused market centered model of economy and society from their ascendancy to their surprising resilience in the face of manifest failures **Conspicuous Consumption in Africa** Ilana van Wyk, Deborah Posel, 2019-05-01 A collection of essays

examining cultures of consumption on the African continent From early department stores in Cape Town to gendered histories of sartorial success in urban Togo contestations over expense accounts at an apartheid state enterprise elite wealth and political corruption in Angola and Zambia the role of popular religion in the political intransigence of Jacob Zuma funerals of big men in Cameroon youth cultures of consumption in Niger and South Africa queer consumption in Cape Town middle class food consumption in Durban and the consumption of luxury handcrafted beads this collection of essays explores the ways in which conspicuous consumption is foregrounded in various African contexts and historical moments The essays in Conspicuous Consumption in Africa put Thorstein Veblen s concept under robust critical scrutiny delving into the pleasures stresses and challenges of consuming in its religious generational gendered and racialised aspects revealing conspicuous consumption as a layered set of practices textures and relations This volume shows how central and revealing conspicuous consumption can be to fathoming the history of Africa s projects of modernity and their global lineages and

legacies In its grounded up close case studies it is likely to feed into current public debates on the nature and future of African societies South African society in particular **American and Muslim Worlds before 1900** John Ghazvinian, Arthur Mitchell Fraas, 2020-02-06 American and Muslim Worlds before 1900 challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and deep seam of history between the two which provides an important context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

Brown, 2022-11-03 It is commonly claimed that Islam is antiblack even inherently bent on enslaving Black Africans Western and African critics alike have contended that antiblack racism is in the faith's very scriptural foundations and its traditions of law spirituality and theology But what is the basis for this accusation Bestselling scholar Jonathan A C Brown examines Islamic scripture law Sufism and history to comprehensively interrogate this claim and determine how and why it emerged Locating its origins in conservative politics modern Afrocentrism and the old trope of Barbary enslavement he explains how antiblackness arose in the Islamic world and became entangled with normative tradition From the imagery of blackened faces in the Quran to Shariah assessments of Black women as undesirable and the assertion that Islam and Muslims are foreign to Africa this work provides an in depth study of the controversial knot that is Islam and Blackness and identifies authoritative voices in Islam's past that are crucial for combatting antiblack racism today **Aggiornamento on the Hill of Janus** Stephen Michael DiGiovanni, Midwest

Theological Forum,2020-06-26 On October 14 1953 Pope Pius XII presided over the dedication of the new Pontifical North American College seminary on the Janiculum Hill above Saint Peter s Basilica Nearly one hundred years had passed since the seminary s founding and the Pope considered the new campus completion a stronger flame of hope for the Church in the United States of America and in the world Devotion to the Holy Father the grace of priestly ordination and a solid training in the Church s teachings were the three treasures that young men trained at the NAC brought back with them to the United States as priests In this follow up to Father Robert McNamara s monumental work *The American College in Rome 1855 1955* Monsignor Stephen M DiGiovanni advances the history of the College over the next quarter century The American students in the 1950s were not the same as those who had lived in the old seminary during the previous century The world was very different after numerous revolutions social upheavals and two world wars Other forces were at work as well including some changes just beginning to take place in American society which would become radically and publicly manifest on American university and seminary campuses during the next decades even in Rome If prior to the Second Vatican Council everything was clear and regimented then during and after the Council less and less was clear cut or well defined on the Hill of Janus In fact few could have predicted the *aggiornamento* or updating that was on the horizon that would profoundly reshape for better or worse the NAC and its future priests
