## **Houghton Mifflin Kindergarten Curriculum Guide:**

**Education in the Kindergarten** Josephine Curtis Foster, 1936      *Foster and Headley's Education in the Kindergarten* Josephine Curtis Foster, Neith Elizabeth Headley, 1966      Music and Play in Early Childhood Education Fanny M. Y. Chung, 2022-10-11 This book provides critical insights into the interplay of sociocultural change and educational practices by elucidating the trajectory of Hong Kong's early childhood music education system. It presents an extensive analysis of postcolonial music education in relation to globalization, westernization, cosmopolitanism, and nationalization. It makes contributions to the theoretical arguments that can be used to interpret the impact of China on the previously Western orientation of education in Hong Kong. This book also explicitly problematizes the theoretical foundations of mandated policies such as play-based learning and moral education in early childhood through music in Hong Kong and across the globe. The analysis of historical context, political influences, and education ideologies in Hong Kong's early childhood education subsystem provides fertile ground for a thorough understanding of the meaning and implications of globalization in education at multiple levels. Many empirical-based discussions in this book reflect the ideologies, trends, and practices of music education globally. Framed by Bandura's social cognitive theory, the empirical studies discussed in the book explore the self-efficacy and practices of education leaders and teachers reflecting the contemporary challenges of music education. Ultimately, it makes a vital contribution by offering a new conceptual model of music teacher education within a globally resonant framework.

Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities, 1991      *Pioneers of Early Childhood Education* Barbara Peltzman, 1998-01-26 Early childhood education is fundamental to a child's later educational achievements and future success. The principles and practices of modern early childhood education have their origins in the past. While the educators who built the field have been the subject of many detailed studies, previous works do not provide adequate coverage of primary and secondary sources, multicultural educators, or more recent leaders in the discipline. This reference book provides biographies and annotated bibliographies of more than 30 pioneers in early childhood education from Johann Amos Comenius 1592-1670 and John Locke 1632-1704 to Maria Montessori 1870-1952, Leland B. Jacobs 1907-1992, and Lillian Weber 1917-1994. Special attention is given to multicultural educators including Mary Church Terrell 1863-1954 and her work with The National Association of Colored Women. Biographies are arranged alphabetically, and each is followed by annotated bibliographies of primary and secondary sources. An introductory essay briefly discusses the history of early childhood education from the 17th century to the present. The following biographies are arranged alphabetically, and each includes a

brief summary of the subjects contributions to the field of early childhood education Each biographical sketch is followed by annotated bibliography of primary and secondary sources including obituaries articles dissertations and books Works were selected because they represent the most interesting and informative sources by and about the educators The volume closes with a chronological listing of the pioneers and a selected bibliography of general works on early childhood education
