building blocks of information are absorbed through memorization and rules the middle school logic stage in which the  
student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with  
force and originality Using this theory as your model you ll be able to instruct your child whether full time or as a supplement  
to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric  
logic art and music regardless of your own aptitude in those subjects Thousands of parents and teachers have already used
