Sign Talk: A Universal Signal Code, Without Appara, Hunting, and Daily Life Ernest Thompson Seaton, 2016-08-06 In offering this book to the public after having had the manuscript actually on my desk for more than nine years let me say frankly that no one realizes better than myself now the magnitude of the subject and the many faults of my attempt to handle it My attention was first directed to the Sign Language in 1882 when I went to live in Western Manitoba There I found it used among the various Indian tribes as a common language whenever they were unable to understand each other s speech In later years I found it a daily necessity when traveling among the natives of New Mexico and Montana and in 1897 while living among the Crow Indians at their agency near Fort Custer I met White Swan who had served under General George A Custer as a Scout He had been sent across country with a message to Major Reno so escaped the fatal battle but fell in with a party of Sioux by whom he was severely wounded clubbed on the head and left for dead He recovered and escaped but ever after was deaf and practically dumb However sign talk was familiar to his people and he was at little disadvantage in daytime Always skilled in the gesture code he now became very expert I was glad indeed to be his pupil and thus in 1897 began seriously to study the Sign Language In 1900 I included a chapter on Sign Language in my projected Woodcraft Dictionary and began by collecting all the literature There was much more than I expected for almost all early travellers in our Western Country have had something to say about this lingua franca of the Plains As the material continued to accumulate the chapter grew into a Dictionary and the work of course turned out manifold greater than was expected The Deaf our School children and various European nations as well as the Indians had large sign vocabularies needing consideration *Federal Register*, 2008 Sign Talk Ernest Thompson Seton, 2022-05-28 In Sign Talk Ernest Thompson Seton undertakes a meticulously researched examination of the visual communication system used by prairie Indians in the United States known as sign talk or sign language Seton provides a comprehensive account of the development of this non verbal language offering valuable insights into its complexity and significance within indigenous cultures The literary style is both analytical and narrative seamlessly blending etymology with cultural anthropology Seton situates the phenomenon of sign talk within a broader linguistic and historical framework tracing its sociocultural origins and contemplating its influence on other languages and communication systems worldwide Ernest Thompson Seton an acclaimed writer naturalist and artist had a profound affinity for the natural world and indigenous cultures His experiences and observations as a conservationist and wildlife artist deeply informed his writings With Sign Talk Seton likely drew upon his extensive fieldwork and interactions with Native Americans channeling his fascination into a scholarly work that captures the nuances of this unique form of communication and its global repercussions Sign Talk is an indispensable resource for linguists anthropologists and historians alike It offers an enlightening perspective on Native American heritage underscoring the vast intellectual achievements of prairie Indian societies The book is commended to anyone interested in the intricacies of human language intercultural communication or

Native American studies Seton's work affirms the enduring relevance of sign talk and its capacity to provide profound insights into the human experience Sign Talk Ernest Thompson Seton, Hugh Lenox Scott, Lillian Delger Powers, 1918
