How Many Miles Ford Escape:

This Far By Faith Faith Fowler, 2014-09-27 Through reports nationwide including the Wall Street Journal and TV news Americans are discovering Faith Fowler's ideas for transforming lives in Detroit's Cass Corridor. Known for her deep faith and creative ideas, Faith serves as one of the city's leading pastors and as a nonprofit entrepreneur. As a co-founder of a wide array of Cass startups, Faith and her Cass community are turning one of the nation's most impoverished urban centers into a gold mine of talent and resources. Now Faith Fowler shares dozens of inspiring true stories of men and women who found new hope and were able to join in building a healthier community through Cass. Mitch Albom says, "The world waits for people like Faith Fowler. This memoir, like the author herself, is funny, poignant, moving, beautifully staged, and oozing with a commitment to a simple yet profound idea that other people are worth the trouble. From turning trash heaps of old tires into a stylish line of sandals to a host of other startup businesses, Faith's work at Cass already has drawn nationwide attention. Headlines have chronicled her innovative ideas and her infectious belief that each and every life is valuable despite the ravages of homelessness, addiction, and violence. In this book, she shares the best of this inspiring community through stories of lives renewed and transformed. This is the first book published by Faith Fowler's latest entrepreneurial venture, Cass Community Publishing House, the first interfaith publishing house established in the city of Detroit in more than two centuries since Father Gabriel Richard, a Catholic priest and co-founder of the University of Michigan, hauled the first printing press into Detroit and invited his Presbyterian friend, the Rev. John Monteith, to publish with him. Like Richard and Monteith before her, Faith Fowler's work is one reason that Detroit is recognized as a center of hope for those who believe peace is possible in our ever more diverse world." Mitch Albom urges everyone, religious or not, to read these pages.

Finding Higher Ground Amy Seidl, 2012-05-01 While much of the global warming conversation rightly focuses on reducing our carbon footprint the reality is that even if we were to immediately cease emissions we would still face climate change into the next millennium In *Finding Higher Ground* Amy Seidl takes the uniquely positive yet realistic position that humans and animals can adapt and persist despite these changes Drawing on an emerging body of scientific research Seidl brings us stories of adaptation from the natural world and from human communities She offers examples of how plants insects birds and mammals are already adapting both behaviorally and genetically While some species will be unable to adapt to new conditions quickly enough to survive Seidl argues that those that do can show us how to increase our own capacity for resilience if we work to change our collective behavior In looking at climate change as an opportunity to establish new cultural norms Seidl inspires readers to move beyond loss and offers a refreshing call to evolve
