Ecopiety Sarah McFarland Taylor, 2019-11-12 Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits No need to make any fundamental structural changes The trick is simply for the consumer to buy the right things and shop our way to a greener future It's time for a reality check Ecopiety offers an absorbing examination of the intersections of environmental sensibilities contemporary expressions of piety and devotion and American popular culture Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in Fifty Shades of Grey to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in True Blood the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action

tofu in a Hummer or hamburgers in a Prius the planet doesn't notice. In our confrontation with climate change, species preservation and a planet going off the cliff, it is what several billion people do that makes a difference. The solution isn't science, politics or activism. It's smarter economics. The hope of mankind and indeed of every living thing on the planet is now in the hands of the dismal science. Fortunately, we've been there before. Economists helped crack the acid rain problem in the 1990s, admittedly with a strong assist from a phalanx of lawyers and activists. Economists have helped get lead out of our gas and they can explain why lobsters haven't disappeared off the coast of New England but tuna is on the verge of extinction. More disquietingly, they can take the lessons of the financial crisis and model with greater accuracy than anyone else the likelihood of environmental catastrophe and they can help save us from global warming if only we let them. **Ohio Nisi Prius and General Term Reports** Ohio. Courts of Common Pleas, 1898 **Strategies for Managing Uncertainty** Alfred A. Marcus, 2019-03-28 Explains how energy industry firms have hedged their bets by using paradoxical strategies to cope with the uncertainty around energy prices and climate change **The Five Tool Negotiator** Russell Korobkin, 2021-04-06 A must read for lawyers, business people and other professionals wanting helpful negotiation advice. Robert Mnookin, author of *Bargaining with the Devil*, *When to Negotiate*, *When to Fight*. As social creatures, we are always trying to influence each other. Russell Korobkin's book lays out five techniques that anyone can use to ensure you get what you want and leave enough on the table so others win too. The book moves quickly, is full of examples and provides step-by-step actionable instructions to help you negotiate anything. Everyone needs this book. Paul J. Zak, author of *Trust Factor: The Science of Creating High Performance Companies*. From leading negotiation expert Russell Korobkin comes this revelatory guide that distills the keys to bargaining into five simple yet sophisticated tools that anyone can master. *The Five Tool Negotiator* stands apart in a category saturated with breezy self-help volumes as a compulsively readable and highly researched must-have for anyone looking to improve their bargaining skills. Nationally renowned UCLA law professor Russell Korobkin distills insights drawn from his decades of studying and teaching the keys to successful negotiations into five simple yet sophisticated strategies: Bargaining Zone Analysis, Persuasion, Deal Design, Power and Fairness Norms. Incorporating lively anecdotes and fascinating social science experiments, Korobkin brings to life concepts from the disparate fields of psychology, economics and game theory. Designed for use at both the flea market and in the C-suite, this game-changing universal approach provides a formula that a savvy reader can implement immediately. **Tool 1: Bargaining Zone Analysis** enables you to identify the range of agreements that will benefit both parties. **Tool 2: Persuasion** convinces your counterpart that reaching an agreement will benefit them more than they otherwise would have recognized, making them willing to give you more. **Tool 3: Deal Design** structures the agreement in ways that increase its value to both parties. **Tool 4: Power** forces your counterpart to agree to terms relatively more desirable to you. **Tool 5: Fairness Norms** enables you to seal a bargain that both parties can feel good about. From negotiating the price of a used car to closing a multimillion-dollar merger, Korobkin meticulously explains how to

answer the following questions that arise in every negotiation Should you make the first offer or let the other side go first What makes some proposals seem more fair than others How do you decide whether to accept an offer reject it or make a counteroffer When should you propose an unusual agreement structure What steps can you take to make a bluff believable Readers will come away with a roadmap to becoming a truly complete negotiator able to understand bargaining as both a strategic and social activity Intuitively accessible and reassuringly persuasive The Five Tool Negotiator promises to be a classic in the art of bargaining strategy The Behavior Analyst ,2008 *Elizabethan Non-Conformist Texts* Leland H. Carlson,Albert Peel,2013-07-12 Very valuable collection of rare religious writings from the early Protestant Church
