Diedrich, Jürgen Heinrichs, 2011-06-01 *From Black to Schwarz* explores the long and varied history of the exchanges between African America and Germany with a particular focus on cultural interplay Covering a wide range of media of expression music performance film scholarship literature visual arts reviews these essays trace and analyze a cultural interaction collaboration and mutual transformation that began in the eighteenth century boomed during the Harlem Renaissance Weimar Republic survived the Third Reich's Degenerate Art campaigns and with new media available to further exchanges is still increasingly empowering and inspiring participants on both sides of the Atlantic **Galaxy Formation and Mergers with Stars and Massive Black Holes** Chi-hun Kim, Ji-hoon Kim, 2011 While mounting observational evidence suggests the coevolution of galaxies and their embedded massive black holes MBHs a comprehensive astrophysical understanding which incorporates both galaxies and MBHs has been missing To tackle the nonlinear processes of galaxy formation we develop a state of the art numerical framework which self consistently models the interplay between galactic components dark matter gas stars and MBHs Utilizing this physically motivated tool we present an investigation of a massive star forming galaxy hosting a slowly growing MBH in a cosmological LCDM simulation The MBH feedback heats the surrounding gas and locally suppresses star formation in the galactic inner core In simulations of merging galaxies the high resolution adaptive mesh allows us to observe widespread starbursts via shock induced star formation and the interplay between the galaxies and their embedding medium Fast growing MBHs in merging galaxies drive more frequent and powerful jets creating sizable bubbles at the galactic centers We conclude that the interaction between the interstellar gas stars and MBHs is critical in understanding the star formation history black hole accretion history and cosmological evolution of galaxies Expanding upon our extensive experience in galactic simulations we are well poised to apply this tool to other challenging yet highly rewarding tasks in contemporary astrophysics such as high redshift quasar formation *Boone, Black Hawk, and Crockett in 1833* Michael A. Lofaro, 2024-01-12 Although names such as Daniel Boone Black Hawk and Davy Crockett are familiar to most Americans the historical political and literary contexts that produced the mythical images of these figures are unfamiliar to most outside academia In *Boone Black Hawk and Crockett in 1833* Michael A. Lofaro compiles, annotates and analyzes three autobiographical writings published in Cincinnati, Ohio in 1833: *The Biographical Memoir of Daniel Boone*, *Life of Ma-ka-tai-me-she-kia-kiak or Black Hawk*, and *The Life and Col. David Crockett of West Tennessee* to reveal how the portrayals of Boone, Black Hawk, and Crockett revised the idea of the frontier hero By placing them together in dialogue through the scholarly reediting of their texts, Lofaro demonstrates that these works exemplify, typify and epitomize

Radical Religious Thought in Black Popular Music. Five Percenters and Bobo Shanti in Rap and Reggae Martin A. M. Gansinger, 2017-12 This book is discussing patterns of radical religious thought in popular forms of Black music The consistent influence of the Five Percent Nation on Rap music as one of the most esoteric groups among the manifold Black Muslim movements has already gained scholarly attention However it shares more than a strong pattern of reversed racism with the Bobo Shanti Order the most rigid branch of the Rastafarian faith globally popularized by Dancehall Reggae artists like Sizzla or Capleton Authentic devotion or calculated marketing Apart from providing a possible answer to this question the historical shift of Bobo adherents from shunned extremists to firmly anchored personifications of authenticity in mainstream Rastafarian culture is being emphasized A multi layered comparative case study attempts to shed light on the re contextualization of language as well as expressed dogmatic perceptions and symbolism attitude towards other religious groups and aspects of ethnic discrimination Further analysis includes the visibility of artists and their references to practical and moral issues directly derived from two obscure ideologies that managed to conquer airwaves and concert halls
