The combustion of fossil fuels creates negative externalities such as air pollution

For example, fine particulates of soot from car exhausts can cause lung problems and are carcinogenic

Government could use fiscal policy to reduce the impact of petrol and diesel cars

They could increase the taxes imposed on the production of these cars

Firms would pass the burden of tax onto consumers making the price of petrol and diesel cars more expensive

This would lead to a fall in cars as consumers will see substitutes such as electric cars which create less air pollution

Therefore, reducing the environmental impact of petrol
