Israel Le Nouvel Apartheid:

Israelis and Palestinians in the Shadows of the Wall Stéphanie Latte Abdallah, Cédric Parizot, 2016-03-09 Shedding light on the recent mutations of the Israeli separation policy whose institutional and spatial configurations are increasingly complex this book argues that this policy has actually reinforced the interconnectedness of Israelis and Palestinian lives and their spaces Instead of focusing on the over mediated separation wall this book deals with what it hides its shadows Based on fieldwork studies carried out by French Italian Israeli Palestinian and Swiss researchers on the many sides of the Israeli Palestinian divide it highlights a new geography of occupation specific forms of interconnectedness and power relations between Israeli and Palestinian spaces It offers a better understanding of the transformation of people's interactions their experiences and the ongoing economy of exchanges created by the separation regime This heterogeneous regime increasingly involves the participation of Palestinian and international actors Grounded in refined decryptions of territorial realities and of experiences of social actors daily lives this book goes beyond usual political media and security representations and discourses on conflict to understand its contemporary stakes on the ground Siria en el torbellino

Conde, Gilberto, 2013-01-18 Una parte muy importante de la población siria expresa voluntad y esperanzas de cambio a partir de marzo de 2011 Se desataron manifestaciones masivas a las que los aparatos de seguridad del Estado respondieron con escaladas de represión Buscando salvaguardar sus propios intereses gobiernos y movimientos de diferentes países dieron su apoyo a las autoridades en unos casos y a los rebeldes en otros la rebelión terminó por convertirse en una sublevación armada a la que el régimen respondió con toda la violencia imaginable Al cabo de un par de años lo que había en Siria no era una simple guerra civil sino un amasijo de devastadores conflictos bélicos con su estela de muertes así como con millones de desplazados y refugiados Esta obra reúne las investigaciones de un número importante de investigadores iberoamericanos especializados en el estudio del Medio Oriente que discuten sin pretensión de unanimidad muy diversos aspectos de estos acontecimientos **Introduction à la géopolitique du XXI^e siècle - Comprendre les conflits contemporains** Guy

Thuillier, 2021-10-26 La géopolitique est selon l'expression de Yves Lacoste l'étude des rivalités de pouvoirs sur des territoires Pour en comprendre les enjeux cet ouvrage se penche d'abord sur les composantes fondamentales de l'espace politique les nations les États et leurs frontières Certains États se fragmentent sous les revendications indépendantistes tandis que d'autres se ferment aux migrations sous l'influence de nationalismes populistes La mondialisation porteuse de développement mais aussi d'incertitudes rode les souverainetés politiques mais ravive un besoin d'identité et de protection La crise environnementale globale exacerbe les tensions pour le contrôle des ressources naturelles Tous ces facteurs recomposent l'ordre mondial L'hégémonie des États vainqueurs de la guerre froide est désormais contestée par les puissances émergentes Chine et Russie entre autres qui refusent les injonctions occidentales au nom des droits humains alors que l'architecture onusienne de sécurité internationale montre ses limites Les attentats du 11 septembre 2001 ont inauguré une guerre contre le terrorisme aux

interminables rebondissements mais aux résultats mitigés. Allons nous vers un choc des civilisations ou plutôt un choc des valeurs. Cet ouvrage est le fruit de 20 ans d'enseignement de la géopolitique à l'Université de Toulouse 2 écrit dans une langue claire et accessible appuyé par de nombreux exemples concrets et complété par un riche cahier cartographique en couleurs. Il s'adresse aux étudiants de premier cycle universitaire en sciences humaines et sociales histoire géographie sociologie droit sciences politiques ou classes préparatoires et plus largement au grand public curieux de mieux décrypter les grands enjeux géopolitiques de l'actualité.

Schoeps: *Operation Al-Aqsa flood* Jacques Baud, 2024-03-01. Why did Operation Al Aqsa Flood take place and what were Hamas's objectives. What really happened on the ground on October 7th. What lessons can we learn from the operations carried out by both sides. To answer these three questions and many others Jacques Baud revisits the Israeli Palestinian conflict from its very beginnings. Why has it still not found a solution. What strategies have Israelis and Palestinians adopted over the past 75 years. What is the impact of this conflict on our security. What are the options for Israel and Palestine in the coming years. In this book of rare clairvoyance Jacques Baud deplores the fact that Western decisions are colliding with international law. The question is not who we are for but how the international order created after 1945 should be applied. Israel's failure to respect this law is provoking its downfall. As with any conflict the solution will not come from emotion but from objective dispassionate analysis and honest mediation. Back cover.

Antisemitism and Racism Christine Achinger, Robert Fine, 2017-10-02
The growing threat of antisemitism racism and Islamophobia within the European political landscape poses urgent and difficult questions These questions concern both commonalities and connections between these forms of prejudice and persecution and differences regarding their discursive functions and the image of the other they project In this volume we interrogate the specific forms of antisemitism and anti-racism take in the public sphere their representation in scholarly discourses and the fact that they increasingly seem to be at home in separate and sometimes antagonistic political and academic camps We also address the conceptual resources and research tools required to study the unity that lies behind

these varied phenomena This collection has a new introduction and brings together papers that arose out of discussions in the European Sociological Association Network on Racism and Antisemitism published in European Societies The chapters relate to current issues in the area of racism and anti-Semitism such as the notable impact of the Israel Palestine conflict on antisemitism in Europe the contested antizionist humour of Dieudonné in France relations between antisemitic and Islamophobic attitudes in Italy and Spain the problem of antisemitic reactions to Islamophobia in Arab media the historical relation of antisemitism to other kinds of racism in German literary discourse and how their study can be instructive for the investigation of antisemitism and Islamophobia today the difficulties Marxists internationally have faced in addressing concerns about antisemitism and current disconnections between racism and antisemitism in the human sciences These papers raise fundamental issues of understanding the modern world This book was originally published as a special issue of European Studies

L'ethique sociale dans l'histoire du mouvement œcuménique Gabriel Mützenberg,1992 **The Colonial Legacy in France** Nicolas Bancel,Pascal Blanchard,Dominic Thomas,2017-05-01 Debates about the legacy of colonialism in France are not new but they have taken on new urgency in the wake of recent terrorist attacks Responding to acts of religious and racial violence in 2005 2010 and 2015 and beyond the essays in this volume pit French ideals against government sponsored revisionist decrees that have exacerbated tensions complicated the process of establishing and recording national memory and triggered divisive debates on what it means to identify as French As they document the checkered legacy of French colonialism the contributors raise questions about France and the contemporary role of Islam the banlieues immigration race history pedagogy and the future of the Republic This innovative volume reconsiders the cultural economic political and social realities facing global French citizens today and includes contributions by Achille Mbembe Benjamin Stora Françoise Vergès Alec Hargreaves Elsa Dorlin and Alain Mabanckou among others *Relaciones*

internacionales ,2014 **Idealism beyond Borders** Eleanor Davey,2015-12-17 This is a major new account of how modern humanitarian action was shaped by transformations in the French intellectual and political landscape from the 1950s to the 1980s Eleanor Davey reveals how radical left third worldism was displaced by the sans frontières movement as the dominant way of approaching suffering in what was then called the third world Third worldism regarded these regions as the motor for international revolution but revolutionary zeal disintegrated as a number of its regimes took on violent and dictatorial forms Instead the radical humanitarianism of the sans frontières movement pioneered by Médecins Sans Frontières emerged as an alternative model for international aid Covering a period of major international upheavals and domestic change in France Davey demonstrates the importance of memories of the Second World War in political activism and humanitarian action and underlines the powerful legacies of Cold War politics for international affairs since the fall of the Iron Curtain **Socialism**

,1987 **The Lure of Anti-Semitism** Michel Wieviorka,2007-10-01 Since the beginning of the 21st century France has seen the return of anti-Semitism with attacks desecration of cemeteries insults and threats This book is the outcome of a survey

carried out by Michel Wieviorka along with a dozen sociologists. He examines different tracks, the possible links between anti-Semitism and the presence of a considerable Muslim population in France, the hypothesis of a meeting between Islamism and the anti-Semitic extreme left as well as the hypothesis whereby the rise of anti-Semitism is connected with the evolution of the Jewish population in France which is increasingly attracted by a community oriented way of life. This book demonstrates that present day anti-Semitism owes as much to factors internal to French society, the social institutional and political crisis as it does to the projection of global issues on French soil, in particular those which originate in the Middle East. He demonstrates that this phenomenon has novel aspects but its more classical features are also borne in mind. This rigorous and objective book is the first scientific study of present day French anti-Semitism. **Estudos afro-asiáticos**, 1989
