Volume 24 of 54 of Jules Verne's Extraordinary Voyages first printed in 1883. Keraban the strong-headed Turk refuses to pay a meager tax newly imposed on those attempting to cross the Bosphorus by boat. Determined to go the long way, he sets out on the several hundred league journey with his only deadline being to return in time to secure his nephew's marriage and the 100,000 pound inheritance that accompanies it. This rare tale by Jules Verne is provided in a simple and clean, but exhaustively recollected from surviving English sources, to be once again enjoyed by Verne fans around the world. This particular edition is reproduced from English edition public works and is presented simply with an emphasis on straightforward presentation, attractiveness, and continuity of appearance, with each title in the Extraordinary Voyages sporting a journal-style brown cover accompanied by a cover illustration and quote from the text on the back cover.

Kéraban le têtu Jules Verne, 1968 *Oceanic Histories* David Armitage, Alison Bashford, Sujit Sivasundaram, 2018
Freshly presents world history through its oceans and seas in uniquely wide-ranging original chapters by leading experts in their fields. **Jules Verne** Timothy Unwin, 2005-10-01
A hundred years after his death, Jules Verne (1828-1905) has, in the popular imagination, become synonymous with prediction of the future. Yet the actual texts of Verne's major novels, the vast series known as the *Voyages extraordinaires*, still remain unknown to many. In the English-speaking world, translations of Verne's best-known novels, *Around the World in Eighty Days*, *Twenty Thousand Leagues under the Sea*, *Journey to the Centre of the Earth*, *From the Earth to the Moon*, have often contained wholesale distortions of his plots and characters, and the popular and false image of Verne as a foreteller of the future often comes not through what he actually wrote but through films and other adaptations of his work. It is against this background of misrepresentation and misconception that the present study has been produced. Verne was, Unwin argues, a master of the self-conscious novel, his work a pastiche of science discourse, fictional and non-fictional writings, and flamboyant theatrical narrative. Unwin makes a compelling case for Verne as a master of the nineteenth-century experimental novel, in the company of Gustave Flaubert and other canonical French writers. The text will be a wonderful addition to the shelves of those interested in science-fiction, experimental writing, and critical theory. **Jules Verne on Film** Thomas C. Renzi, 2004-03-24
Jules Verne. Voila a name that resonates with visions of fantastic adventures and images of exotic exploits. In his *voyages extraordinaires*, the noted French author fuses his encyclopedic knowledge of science and geography with his ability to tell fascinating tales, taking his readers on unprecedented journeys across the globe, into the earth, and out into space. This revered writer, who with his boundless

imagination had hoped to contribute substantially to the world of letters has surpassed that expectation to become coincidentally a significant influence on film Jules Verne on Film is both a penetrating analytical overview of Verne's epic novels and a comprehensive filmography of the numerous films inspired by his stories and characters There are the obvious adaptations that come directly from the pages of Verne's writings films such as In Search of the Castaways and Mysterious Island However looking closely at the plots characters and themes of many other films science fiction and otherwise one discovers that the incomparable Verne has had a far wider influence on filmmakers than one might have thought For instance most of us are familiar with Disney's 20 000 Leagues Under the Sea 1954 and some of us may have even seen the two 1997 television productions But Verne's classic undersea adventure also provides the underpinnings for such entertaining movies as Fantastic Voyage 1966 and Innerspace 1987 Structurally Jules Verne on Film begins with a biographical sketch and contains 23 chapters arranged alphabetically according to book title starting with The Adventures of Captain Hatteras and ending with Voyage Across the Impossible Each chapter includes a summary and analysis of Verne's story followed by a chronological treatment of the cinematic adaptations compared to their respective written work Production credits appear in the film entries along with plot synopses and thorough critical commentaries

The Mysterious Island Jules Verne, 2013-09-01 At a time when Verne is making a comeback in the US as a mainstream literary figure Wesleyan is pleased to publish a new translation of one of his best known novels The Mysterious Island Although several editions under the same title are in print most reproduce a bowdlerized nineteenth century translation which changes the names of the characters omits several important scenes and ideologically censors Verne's original text The Mysterious Island was published in 1874 and it is one of Verne's longest novels The plot depicts a group of men who have become castaways stranded on an island in the Pacific during the American Civil War The novel describes their attempts not only to survive but also with the aid of the scientific and technological know how to rebuild their world from the meager resources of the island At the end however it is realized that Captain Nemo from Twenty Thousand Leagues Under the Sea has secretly been helping the settlers A marvelous adventure story The Mysterious Island is also notable for its modern retelling of the utopian deserted island myth with repeated echoes of Robinson Crusoe and the Swiss Family Robinson This Wesleyan edition features notes appendices and an introduction by Verne scholar William Butcher as well as reproductions of the illustrations from the original French edition

The Extraordinary Journeys Jules Verne, 2005 First Mate Shandon receives a mysterious letter asking him to construct a reinforced steamship in Liverpool As he heads out for Melville Bay and the Arctic labyrinth a crewman reveals himself to be John Hatteras and his lifelong obsession the Pole Despite experiencing appalling cold and hunger the captain treks across the frozen wastes in search of fuel Abandoned by his crew Hatteras remains without resources at the coldest spot on earth How can he find food and explore the Polar Sea And what will he find at the top of the world Back cover
