Le Syndrome De Vichy:

The Vichy Syndrome Henry Rousso, 1991 From the Liberation purges to the Barbie trial France has struggled with the memory of the Vichy experience a vivid memory of defeat occupation and repression How has this proud nation dealt with les annees noires What is the collective memory of those few years what have the French chosen to remember what have they chosen to conceal Vichy's Afterlife Richard Joseph Golsan, 2000-01-01 One of the distinctive features of the Vichy Syndrome the persistence of the memory of the Vichy regime in French political and cultural life is that it has been extremely difficult for an authoritative historical discourse to impose itself Why does Vichy and all that the name entails fascinate and even obsess the French inflecting not only discussions of the past but of the present as well In *Vichy's Afterlife* Richard J Golsan explores the complexities of some of the most provocative episodes of Vichy's curious persistence in France's national consciousness He argues that each of these episodes events and scandals constitutes a crossroads where history and counterhistory different or competing versions of the past encounter one another often with explosive and even destructive consequences , God's Eugenicist Andrés Horacio Reggiani, 2007 The temptations of a new genetically informed eugenics and of a revived faith based world wide political stance this study of the interaction of science religion politics and the culture of celebrity in twentieth century Europe and America offers a fascinating and important contribution to the history of this movement The author looks at the career of French born physician and Nobel Prize winner Alexis Carrel 1873 1944 as a way of understanding the popularization of eugenics through religious faith scientific expertise cultural despair and right wing politics in the 1930s and 1940s Carrel was among the most prestigious experimental surgeons of his time who also held deeply illiberal views In *Man the Unknown* 1935 he endorsed fascism and called for the elimination of the unfit The book became a huge international success largely thanks to its promotion by Readers Digest as well as by the author's friendship with Charles Lindbergh In 1941 he went into the service of the French pro German regime of Vichy which appointed him to head an institution of eugenics research His influence was remarkable affecting radical Islamic groups as well Le Pen's Front National that celebrated him as the founder of ecology *The Papon Affair* Richard Joseph Golsan, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company Identity Papers Steven Ungar, Tom Conley, 1996-01-01 What does citizenship mean What is the process of naturalization one goes through in becoming a citizen and what is its connection to assimilation How do the issues of identity raised by this process manifest themselves in culture These questions and the way they arise in contemporary France are the focus of this diverse collection The essays in this volume range in subject from fiction and essay to architecture and film Among the topics discussed are the 1937 Exposition Universelle films dealing with Vichy France Fran ois Truffaut's *Histoire d'Ad le H* the war of Algerian independence and nation building under Fran ois Mitterrand Amazon.com A History of Political Trials John Laughland, 2008 This is a formidable and well documented counterblast to a developing modern orthodoxy expressing a point of view that many

readers will not even have suspected existed let alone read Anthony Daniels Spectator A useful and controversial contribution to the debate about victor s justice and a valuable warning that international war crimes tribunals need to operate with precision and care Jonathan Steele Guardian The rapid development of the use of international courts and tribunals to try heads of state for genocide and other crimes against humanity has been welcomed by most people because they think that the establishment of international tribunals and courts to try notorious dictators represents a triumph of law over impunity In A History of Political Trials John Laughland takes a very different and controversial view namely that political trials are inherently against the rule of law and almost always involve the abuse of process as well as being seriously hypocritical By means of detailed consideration of the trials of figures as disparate as Charles I Louis XVI Erich Honecker and Saddam Hussein Laughland shows that the guilt of the accused has always been assumed in advance that the judges are never impartial that the process is always unfair and biased in favor of the prosecution that the defense is not permitted to use all the arguments at its disposal and that often the accusers have done exactly what they accuse the defence of having done All the trials he recounts were marked by arbitrariness and injustice often gross injustice Although the chapters are short and easy to read they are the fruit of formidable erudition and wide reading The general reader will be forced by this book to re examine the ideas on this subject and will be much less sanguine about the possibility of bringing dictators and other leaders to genuine justice John Laughland lives in Bath and is an author journalist and has been a university lecturer in France He has published The Tainted Source The Undemocratic Origins of the European Idea Time Warner Paperbacks and has written for the Spectator the Economist and The New York Times Table of Contents Introduction The Trial of Charles I and the Last Judgement The Trial of Louis XVI and the Terror War Guilt after World War I Defeat in the Dock the Riom Trial Justice as Purge Marshal Peacutain faces his Accusers Treachery on Trial the Case of Vidkun Quisling Nuremberg Making War Illegal Creating Legitimacy the Trial of Marshal Antonescu Ethnic Cleansing and National Cleansing in Czechoslovakia 19451947 Peoples Justice in Liberated Hungary From Mass Execution to Amnesty and Pardon Postwar Trials in Bulgaria Finland and Greece Politics as Conspiracy the Tokyo Trials The Greek Colonels the Emperor Bokassa and the Argentine Generals Transitional Justice 19752007 Revolution Returns the Trial of Nicolae Ceausescu A State on Trial Erich Honecker in Moabit Jean Kambanda Convicted without Trial Kosovo and the New World Order the Trial of Slobodan Milosevic Regime Change and the Trial of Saddam Hussein Conclusion Notes Bibliography and Further Reading Index

Affective Genealogies Elizabeth Jane Bellamy, 1997-01-01 Affective Genealogies is an incisive contribution to the current reassessment of postmodern culture and theory Elizabeth J Bellamy examines how the Holocaust and Jews have been represented in a wide range of French poststructuralist works Central to Bellamy s study is her questioning of whether the non essentializing discourse of postmodernism can ever enable a genuine working through to an understanding of the horror of the Holocaust She concludes that much recent French thought encrypts but does not fully confront the trauma of the

Holocaust Bellamy begins by surveying contemporary writings on Judaism the Holocaust and the crisis of memory She then closely examines recent French debates about Martin Heidegger's relationship to the Nazis focusing on Jacques Derrida's controversial defense of Heidegger's works Another chapter examines the works of Philippe Lacoue Labarthe and Jean Luc Nancy noting the ambiguous ways in which they portray the roles played by Jews in modern intellectual history The last chapter examines the representation of Judaism in Jean Francois Lyotard's writings Bellamy's book contributes to the recent reevaluation of French postmodernism and to current studies on the representation of Jews and the Holocaust in Western literature and thought As Sander Gilman has noted the writers and works that were generated in France from Sartre to Lyotard have had a seminal role in shaping the international philosophical discourse about Jewish identity *Affective Genealogies* is an essential guide to that controversial and influential philosophical movement Elizabeth J Bellamy is an associate professor of English at the University of New Hampshire She is the author of *Translations of Power Narcissism and the Unconscious in Epic History*

Pétain Nicholas Atkin, 2014-06-17 Pétain 1856-1951 remains one of the most controversial figures in the history of modern France He was saviour of his country at Verdun in 1916 during the First World War but tried for treason as head of state of the collaborationist Vichy government after World War II Were his actions those of a traitor or a patriot facing the total disintegration of his country In exploring the actions of this controversial figure Nicholas Atkin also reveals the divisions and uncertainties of France herself *Police and Politics in Marseille, 1936-1945* Simon Kitson, 2014-05-01 Simon Kitson's *Police and Politics in Marseille 1936-1945* offers a history from below analysis of the attitude of the Marseille Police between the Popular Front and the Liberation of France Kitson highlights the specificities of policing France's largest port clientelism corruption a floating population and high levels of criminality including organised crime But he also demonstrates why many of his conclusions about Police attitude can be generalised to other parts of France and in so doing challenges many of the assumptions of the existing historiography Although they zealously hunted down Jews and communists the Police were not as reliable for the Vichy government as is commonly assumed and were undoubtedly far more involved in Resistance than most sectors of society

The Extreme Right in France James Shields, 2007-05-07 As well as providing a detailed biography of Le Pen the leader of the National Front in France this book also explores the wider development of the extreme right as a significant intellectual and political force within France

Fascism's Return Richard Joseph Golsan, 1998-01-01 In *Fascism's Return* eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the

1980s of Central American dictatorships *Nationalism and the Cinema in France* Hugo Frey, 2014-07-01 It is often taken for granted that French cinema is intimately connected to the nation's sense of identity and self-confidence. But what do we really know about that relationship? What are the nuances, insider codes and hidden history of the alignment between cinema and nationalism? Hugo Frey suggests that the concepts of the political myth and the film event are the essential theoretical reference points for unlocking film history. *Nationalism and the Cinema in France* offers new arguments regarding those connections in the French case, examining national elitism, neo-colonialism and other exclusionary discourses, as well as discussing for the first time the subculture of cinema around the extreme right Front National. Key works from directors such as Michel Audiard, Jean-Luc Godard, Jean-Pierre Melville, Marcel Pagnol, Jean Renoir, Jacques Tati, François Truffaut and others provide a rich body of evidence.

The Missing Italian Nuremberg M. Battini, 2007-08-20 This book explores how the trial of the entire military command of the Nazi power structure in Italy prepared by the Allies following the Nuremberg mode came to be replaced by a few contradictory trials of very minor significance. This resulted in an enormous historical misrepresentation of the Nazi occupation of Italy.

Holocaust Monuments and National Memory Cultures in France and Germany Since 1989 Peter Carrier, 2005 Since 1989 two sites of memory with respect to the deportation and persecution of Jews in France and Germany have received intense public attention: the Ve d'Hiv in Paris and the Monument for the Murdered Jews of Europe in Berlin. Why is this so? Both monuments, the author argues, are unique in the history of memorial projects.

Taking Wrongs Seriously Elazar Barkan, Alexander Karn, 2006 This multi-disciplinary collection examines the recent wave of political apologies for acts of past injustice.

Exclusions Julie Fette, 2012-03-27 In the 1930s the French Third Republic banned naturalized citizens from careers in law and medicine for up to ten years after they had obtained French nationality. In 1940 the Vichy regime permanently expelled all lawyers and doctors born of foreign fathers and imposed a 2 percent quota on Jews in both professions. On the basis of extensive archival research, Julie Fette shows in *Exclusions* that doctors and lawyers themselves, despite their claims to embody republican virtues, persuaded the French state to enact this exclusionary legislation. At the crossroads of knowledge and power, lawyers and doctors had long been dominant forces in French society: they ran hospitals and courts, doubled as university professors, held posts in parliament and government and administered justice and public health for the nation. Their social and political influence was crucial in spreading xenophobic attitudes and rendering them more socially acceptable in France. Fette traces the origins of this professional protectionism to the late nineteenth century when the democratization of higher education sparked efforts by doctors and lawyers to close ranks against women and the lower classes, in addition to foreigners. The legislatively imposed delays on the right to practice law and medicine remained in force until the 1970s and only in 1997 did French lawyers and doctors formally recognize their complicity in the anti-Semitic policies of the Vichy regime. Fette's book is a powerful contribution to the argument that French public opinion favored exclusionary measures in the last years of the Third
