Ghost Words and Invisible Giants Lheisa Dustin, 2021-06-29 In Ghost Words and Invisible Giants Lheisa Dustin engages psychoanalytic theory to describe the language of suffering of iconic modernist authors H D and Djuna Barnes tracing disconnection psychic splitting and virulent thought patterns in creative works that have usually been read as intentionally enigmatic Dustin imbricates Barnes and H D s sense of tenuous psychic boundaries with others parent figures otherworldly and divine beings and ambivalent or malignant love objects in their creative brilliance suggesting that the writers works stage and also help manage their psychic suffering in language in which signifier the sound or image of the word and signified what it means are radically disconnected The cryptic and ineffable styles of these texts thus involve attempts to embody the meanings that cannot be expressed through language Dustin reads two of H D s later works as examples of language that does not differentiate words thoughts and people from one another and instead tries to include everything in its formulations of meaning However H D she argues also seeks an end to this mental proliferation an end that she associates with the hallucinatory return of difference as such In contrast Dustin reads two novels by Barnes as invoking and denying childhood secrets through the use of fetishized words To supplement her psychoanalytic readings Dustin considers the authors familial and romantic histories and their broader social involvements or noninvolvement for instance H D s Occultist practices and psychoanalytic sessions Barnes s fascination with spectacle and her later reclusion rendering a detailed and compelling analysis of the forces at play beneath enigmatic difficult modernist literary works Read in this light the spectral and otherworldly figures and strange patterns of expression appearing in H D s and Barnes s writing and perhaps much of our writing signal the traumatic content that it tries to negate

New,2014-01-10 Today the United States is plagued with cultural and political polarization the Reds and the Blues Because religion has been of great significance in America right from the first colonists who believed themselves to be God s chosen nation it is not surprising that religion constitutes the basis of today s dichotomy The recent resurgence of Christian fundamentalism is significant for the future of America as a nation under God This book examines the history of conservative American Christianity as it interacts with liberal beliefs With the Enlightenment the Puritan sense of mission faded but was rekindled with the Great Awakening This religious

movement unified the colonies and provided an animating ideal which led to revolution against Britain But soon after the forces of liberalism made inroads and the seeds of division were planted This balanced account favors neither conservative nor liberal It is history with a human touch emphasizing personalities from Jonathan Edwards and William Jennings Bryan to David Koresh and Jim Jones The Turn of the Century Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective

The Transformations of Tragedy Fionnuala O'Neill Tønning, Erik Tønning, Jolyon Mitchell, 2019-11-26 The Transformations of Tragedy Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post classical Western tragedy The volume is divided into three parts early modern modern and contemporary This series of essays by established and emergent scholars offers a sustained study of Christianity's creative influence upon experimental forms of Western tragic drama Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history yet Christianity's diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity The Autism of Gxd Ruth M. Dunster, 2022-12-02 The Autism of Gxd An Atheological Love Story is truly a love story the story of Ruth Dunster's autistic search for an authentic personal and theological Gxd In this it resembles Augustine's Confessions as a theological autobiography It becomes atheological however as Dunster reckons with what Denys Turner terms The Darkness of God This awareness leads her through the poetry of Medieval mystics to the mythic death of God theology of Thomas J J Altizer The search for faith is nonetheless very real in this strange territory Dunster hears her autistic Gxd speaking in art poetry novels and music and this further leads her into the territory of Literature Theology and the Arts where in Blanchot's words the answer is the poem's absence Indeed Dunster calls the book a strange poem or even a hymn Weaving an autistic mythology out of a rigorous survey of clinical autism this book abounds in challenge and paradox It offers a fascinating view into how an autistic poet becomes a theologian and what more mainstream theologies might learn from this disabled Gxd **The Turn of the Century/Le tournant du siècle** Christian Berg, Frank Durieux, Geert Lernout, 2012-06-21 No detailed description available for The Turn of the Century Le tournant du siècle
