Chunoo, Kathy L. Guthrie, 2018-06-01 Social justice and leadership education are inextricably linked In order to move social justice forward we need to develop leaders with knowledge skills and values to engage effectively in the leadership process We need socially just leaders now more than ever At a time when our elected and appointed officials agree on very little our communities are divided and distrustful of one another and individual citizens struggle for fairness in the face of discrimination society is at a crossroad In one direction lies the reproduction of oppression and marginalization continued distrust and further fragmentation In the other a route toward healing compassion and fairness How then do we prepare our leaders of tomorrow to walk the path of justice rather than take the road to ruin Changing the dominant narratives in society involves preparing skilled social critics and knowledgeable advocates for positive and sustainable change through education However when leadership education fails to consider social justice issues or when social justice education omits leadership learning both fall short of their goals This texts links issues of social justice equity and equality to leadership knowledge skills and values with the intent of offering theoretical practical and policy recommendations to improve the work of educators charged with preparing undergraduates for the complexities of leadership in all its forms Collectively the contributors inform much needed practices and pedagogies toward socially just leadership education No single one of us can change the narrative alone but together we can amplify the voices of those leading toward justice The perspectives offered here are but a sample of the work being done to make the future a brighter place for all We invite you to be part of the conversation *Self-management and Leadership Development* Mitchell Grant Rothstein, Ronald J. Burke, 2010-01-01 This book is based on a really important timely and relevant idea to bring together sources on the self management of leadership development The book is important because almost all leadership development relies to a great degree on the leader s capability to manage his or her personal development It is timely because there is currently no single volume that covers the topic and it is relevant because leadership is such an extremely important issue for the success of our organizations countries and society in general The editors have done a thoroughly professional job in identifying top quality authors and combining their contributions into a very worthwhile volume Ivan Robertson University of Leeds UK Self Management and Leadership Development offers a unique perspective on how leaders and aspiring leaders can and should take personal responsibility for their own development This distinguished book is differentiated from other books on this topic with its view on the instrumental role played by individuals in managing their own development rather than depending on others such as their organization to guide them Expert scholars in the area of leadership emphasize the importance of self awareness as the critical starting point

in the process Explicit recommendations are provided on how individuals can manage their own self assessment as a starting point to their development The contributors present insights and practical recommendations on how individuals can actively self manage through a number of typical leadership challenges Business school faculty teaching electives in leadership and managers who engage in leadership development for themselves or others should not be without this important resource Consulting firms and training institutions offering leadership development programs and participants in MBA and executive development programs will also find it invaluable
