**Making Teaching and Learning Matter** Judith Summerfield, Cheryl C. Smith, 2010-12-09 This volume captures the spirit of collaboration and innovation that its authors bring into the classroom as well as to groundbreaking undergraduate programs and initiatives Coming from diverse points of view and twenty different disciplines the contributors illuminate the often perplexing debates about what matters most in higher education today Each chapter tells a unique story about creating vital pedagogical arenas that have the potential to transform teaching and learning for both faculty and students These exploratory spaces include courses under construction cross college and interdisciplinary collaborations general education reform initiatives and fresh perspectives on student support services faculty development freshman learning communities writing across the curriculum on line degree initiatives and teaching and learning centers All these spaces lend shape to an over arching system wide project bringing together the often disconnected silos of undergraduate education at The City University of New York CUNY America s largest urban public university system Since 2003 the University s Office of Undergraduate Education has sponsored coordinated efforts to study and improve teaching

and learning for the system's 260 000 undergraduates enrolled at 18 distinct colleges The contributors to this volume present a broad spectrum of administrative and faculty perspectives that have informed the process of transforming the undergraduate experience Combined the voices in these chapters create a much needed exploratory space for the interplay of ideas about how teaching and learning need to matter in evolving notions of higher education in the twenty first century In addition the text has wider social relevance as an in depth exploration of change and reform in a large public institution

**How I Survived Three Years at a Two-Year Community College** Swift James Swift, James Swift, 2009-11 one man shares his compelling three year journey into self realization adulthood and the rigors of junior college as a series of highly improbable events propels him toward a greater destiny P 4 of cover **Small Press**, 1989 *Data Wise, Third Edition* Kathryn Parker Boudett, Candice Bocala, 2025-07-28 A revised and updated edition presents field tested strategies to foster equity inclusion and continuous improvement in educational practice [The Transformational Odyssey](#) Robert Barner, 2017-07-01 The Transformational Odyssey was written to help those individuals who are facing difficult life transitions and who are attempting to successfully navigate tough life decisions and engage in deep self discovery Unlike other self help books that attempt to provide readers with homespun advice for addressing difficult life challenges The Transformational Odyssey shows readers how to take charge of their self growth and development It does this by providing readers with several applied techniques for engaging in deep self learning in a more profound and fundamentally life changing way The title The Transformational Odyssey reflects the book's integrative metaphor of transformational learning as a personal odyssey of self discovery The word odyssey connotes a long and sometimes arduous and meandering journey Although an odyssey may present the traveler with unexpected trials and challenges in the end it may yield increased wisdom and knowledge Building on this metaphor The Transformational Odyssey introduces readers to eight passages that they will inevitably encounter during their own personal odysseys of self discovery Each of these passages involves a uniquely different learning challenge that as it is successfully navigated increases the reader's capacity for self growth The Transformational Odyssey is written in a conversational style as if the author were sitting down next to the reader to share my forty plus years of experience as a personal coach and life transition counselor Since different people learn in different ways this book incorporates a variety of different learning methods including actual cases exercises suggested actions famous quotes and metaphors For those readers who would like to dig deeper on a given topic at the end of each chapter the author has included a separate section that introduces readers to related cutting edge research in the field of human psychology The topics included in these sections cover such areas as mindfulness meditation narratives and future selves

**ENDORSEMENTS** The Road to self discovery is one that has been traveled before The Transformational Odyssey explores this journey in a unique and different way by beginning at the intersection of academic exploration and the examination of authentic experiences Robert Barner finds ways to challenge his readers while also guiding each person in a way that is most

logical and emotionally transcendent to them And he does so in an insightful compelling way I highly recommend this book to anyone who is ready to be vulnerable and wants to grow Kevin Beachum Jr NFL Athlete Investor Speaker Philanthropist This is a dazzlingly ambitious book and it does not disappoint Thought provoking compelling and an extraordinary source of scientifically based insight for anyone seeking to improve their lives Jim Loehr Best Selling Author Co Founder of The Human Performance Institute The Transformational Odyssey enlists the reader in a powerful journey grounded in their own creative imagination and wells of inspiration This road of self renewal is exciting and dangerous and the work is not for the timid Robert Barner knows the territory intimately and is a guide you can both trust and enjoy Charles J Palus Senior Fellow Center for Creative Leadership In The Transformational Odyssey Dr Robert Barner offers what few self help books do a research based journey into self awareness leading to real and sustained change In embarking on this journey readers will become more attuned to their experiences more open to others and more effective leaders partners parents and friends I highly recommend this book for those courageous enough to encounter transformational learning Jaime Goff Certified Executive Coach and President The Empathic Leader LLC
