Textual & Visual Selves Natalie Edwards, Amy L. Hubbell, Ann Miller, 2011-12-01 Autobiography in France has taken a decidedly visual turn in recent years photographs shown or withheld become evidence of what was might have been or cannot be said photographers filmmakers and cartoonists undertake projects that explore issues of identity Textual and Visual Selves investigates from a variety of theoretical perspectives the ways in which the textual and the visual combine in certain French works to reconfigure ideas and images of self representation Surprisingly what these accounts reveal is that photography or film does not necessarily serve to shore up the referentiality of the autobiographical account on the contrary the inclusion of visual material can even increase indeterminacy and ambiguity Far from offering documentary evidence of an

extratextual self coincident with the I of the text these images testify only to absence loss evasiveness and the desire to avoid objectification However where Roland Barthes famously saw the photograph as a prefiguration of death in this volume we see how the textual strategies deployed by these writers and artists result in work that is ultimately life affirming
